BAY BARRIER NEED TOLD AT MEETING

'ROUND 'N' 'ROUND

Isn't it funny how a mother will boil a baby's milk bottle for hours at a time—in fact, the coming generation is one which has never been touched, in more ways than one—and the moment the young hopeful gets out in the open it picks up a handful of dirt and crams it down his or her throat. And 'tis a fact that they usually manage to find the dirtiest dirt in the neighborhood.

And it's a relief to find physicians who have the gumption to admit that they are baffled—for the time being. The old time doctor who fed you bread and sugar pills when he couldn't diagnose your case seems to be a thing of the past.

The mystery seems to have been removed from the medical profession, and intelligent persons now have a great deal more confidence in their physicians.

The doctor who treats you for appendicitis and then lets you die from the effects of a fractured skull is just about as out of date as the man who insisted that he could die without a physician's attendance. And the young physician's answer to that last wise crack was that when he treated a person for a certain disease, that was the disease he died from—

Preventative medicine seems to be all the rage now, and justly so. Again we refer to that chart on communicable disease in the office of the Richmond Health Department. Keeping from having contagious diseases kept that chart clean during the last week. There have been very few contagious or serious diseases in this city. Probably largely due to the fact that we have a clean, healthy city. Doctors must also be given credit for using methods of prevention instead of waiting until it's time for a specialist or an undertaker.

Nowadays when the future president of the United States takes a hoe and lays open the head of Miss America of 1930, you don't stop to wait and see if lockjaw or some other infection develops. After you have turned young hopeful over your knee for fooling with the family hoe you rush daughter to a physician who treats the child in such a manner that it is impossible for lockjaw to set in.

The time was when many persons bragged about their serious illness or operation. Now we hang our head in shame when we are forced to admit it before the insurance examiner or some other person.

Naturally, we're going to have disease with us for some time to come, but it is rapidly being made to beat a fast retreat. Even cancer is being made to duck its head. After doctors complete their study of the cancer cure and find it to be a success, the only thing we will have to worry about will be automobiles.

If some cure can be found for automobiles, there will soon be no excuse why all of us can't count our birthdays in three figures. Of course, some of us will have to wait a little longer than others to do that, but then the time is coming.

Police Seek Taxi Bandits

CHICAGO, Feb. 8.—UP—A young woman bandit with a penchant for robbing taxicabs and leaving them in a state of nudity, and her male companion were sought by Chicago's payless police tonight.

The woman, smiling and fur clad, already has held up four taxi drivers, robbed them and then forced them to disrobe, leaving them shivering and embarrassed in near zero weather. She is described as about 20 years old.

VIGILANTES WILL BE FORMED

CHICAGO, Feb. 8.—(UP)—Big business was mobilizing tonight to run the gangster out of Chicago.

Aroused to a fighting pitch by a murder a day in the city's streets during the past week, the business leaders pledged drastic action against crime.

Their campaign embraces the following moves:

Appointment of a secret committee of "courageous men" to conduct the fight.

Full cooperation with police and state's attorneys in a drive for more and better law enforcement officers.

Vigilantes Planned

Appointment of vigilantes if necessary, to supplement work of regular police and detectives.

Gangsters and racketeers have cost Chicago untold millions in the last ten years.

Tonight the big business men of the city were determined to end expense and redeem the city's reputation.

Much Aid

Dollars from the Gold Coast and La Salle street are to be thrown into the fight which is led by the Association of Commerce, including heads of the city's leading industries.

The association committee, issued a statement that the crime situation "can no longer be countenanced," and promised much action and few words in freeing Chicago from the grip of "Scarface" Al Capone, his lieutenants and his enemies.

While the personnel of the committee of business men has not yet been announced, Robert L. Ham Randolph, president of the association, said today that he had selected the five men who will work with him and that work had already started.

Identity of the committee members will not be revealed, Randolph said this afternoon.

"We want men of fortitude, and we don't want them hampered. Therefore, their identities will not be revealed," Randolph said. "The (Continued on Page 8)

NATURAL GAS FOR CROCKETT

MARTINEZ, Feb. 8.—Crockett will receive natural gas in its mains Monday according to executives of the Coast Counties Gas and Electric company. This will make the fourth Contra Costa county community to be served by the natural product.

New fuel will be served to Pinole and Rodeo as soon as the change over can be effected.

Lions Ladies Night Friday

Ladies night will be held by the Richmond Lions' club at the Athens club in Oakland Friday night.

Dr. and Mrs. A. B. Hinkley are heading the host and hostess list. Dinner will be served and dancing will be enjoyed.

Richmond Man Recovering From Effects Of Gas

Suffering from the effects of gas, which, according to police, he received when he attempted to commit suicide, James Aimar, 56, of Sutter street, North Richmond, is in the cottage hospital.

Aimar was found on the floor of his house at 11 o'clock yesterday morning by Mrs. Edward Banducci of Hensley avenue.

She immediately called the police, and Aimar was removed to a hospital where he was treated by Dr. W. E. Cunningham. According to the doctor, Aimar will recover.

Aimar is a bachelor and is an employee of the Certain-teed Products company. No reason for his alleged attempt at suicide is known.

Chosen As Miss Austria

INGEBORG VON GRIENERGER, has been chosen as Miss Austria for 1930. Although only 18, the beauty has been an extensive traveler.

CANCER CURE NEAR, BELIEF

DEL MONTE, Feb. 8.—UP—Expressing confidence that he is on the way toward an important discovery Dr. W. B. Coffey, San Francisco, today told delegates to Pacific Coast Surgical association convention about a new method of treating cancer.

Frequent reference was made in the address to Dr. John D. Humber, San Francisco, who assisted Dr. Coffey in his experiments.

Method of treatment, according to Dr. Coffey, is to inject an extract into the affected part. This extract is obtained from the suprarenal gland and the action causes a sloughing off, layer by layer, of the affected part.

The extract, the physician explained, was discovered by accident and its importance was not realized until it was learned that application of it retarded growth of cancer.

Speaking slowly and carefully, Dr. Coffey said: "I feel almost scared to make these statements before you. We are confident that we are on the way toward something very important to the medical world and to humanity."

Dr. Coffey said since word of the extract finding had become known that many persons had volunteered for treatment and that "we are now surrounded by cases which will demonstrate whether we are right or wrong."

Petaluma Girl Attempts Death

PETALUMA, Feb. 8.—UP—Going to the woods in the rear of her home late today, Miss Irene Scott, 14, a student at the Petaluma junior high school, shot herself in the right temple with a .41 calibre revolver. She will probably die.

Her mother heard the shot and rushed to the woods where she found her daughter with blood streaming from the wound in her head. She could not give any possible motive for her daughter's act.

Sixth Date For Electrocution Set

HUNTSVILLE, Tex., Feb. 8.—UP—Percy Howard would be both shocked and surprised if he were ever put in an electric chair. Howard, convicted of murder in the death of N. V. Dixon of El Paso in 1920, has awaited electrocution five times and five times has been granted clemency. His sixth date with death is May 9, this year. Governor Moody having reset the time pending trial of an accomplice. If the accomplice is freed, Howard may escape the chair.

U. S. SEEKS EQUALITY WITH NAVY OF BRITAIN

WASHINGTON, Feb. 8.—(UP)—American delegates to the London naval conference have prepared a program to obtain not only numerical battleship parity with Great Britain, but actual fighting equality in that class of ship.

An American official revealed this plan to the United Press. State department officials would not comment on it beyond saying Great Britain's fighting supremacy would vanish in the process of scrapping to obtain parity within the next ten months. Some difference of opinion apparently exists regarding the possibility of balancing 15 American capital ships against 15 British capital ships in a manner that would provide satisfactory equality in fighting power.

The Washington treaty provided the Anglo-American capital ship fleets should be equal in 1942 at 15 vessels each. Britain now has 20 and America has 18. Prime Minister MacDonald and Secretary of State Stimson have agreed the fleets shall be equalized next year.

But the United Press is informed Stimson will propose a scrapping program for Great Britain which would alter the fundamental idea underlying the Washington Arms conference program.

The United Press was told that Stimson would suggest Great Britain scrap some of her 1915 and 1916 class vessels, which are armed with 15 inch guns instead of scrapping the Benbow, Emperor of India, Marlborough, Iron Duke and Tiger of the 1914 class, which are armed with 15.5 inch guns and which, with the exception of the Tiger, are as slow as American battleships.

After scrapping those five, Great Britain would possess 15 battleships with aggregate main batteries of 100 15 inch and 18 guns of 16 inches, and the slowest British warship would be faster than the fastest American warship. But by scrapping ships of the 1915-16 type, Britain would retain the ships.

Retrial Denied In Tunnel Suit

MARTINEZ, Feb. 8.—A plea of Smith Brothers' contracting firm for re-trial of a suit in which Mrs. Emma L. Haron received judgment of \$7500 for the death of her son, William Pauley in the Claremont Tunnel disaster in 1926, was today refused by Superior Judge H. V. Alvarado.

It was indicated that the action might be terminated by Mrs. Haron accepting an amount somewhat lower than the judgment.

Man Woos Self Into Jail Cell

GRAND ISLAND, Neb., Feb. 8.—UP—William Culbertson "wooned himself into jail" here. So attentive was sweet William, standing on the outside looking on the inside at a young woman inmate that officers arrested him for vagrancy and placed him in a companion cell.

Work Progresses On New Cannery At Inner Harbor

Framework for the new Fellos and Perrelli cannery will be started within approximately three weeks, according to Charles Stockholm, of Charles Stockholm and Son, contractors for the building with William Radtke.

A crew of about a dozen men is now engaged in the necessary preliminary work, and according to Stockholm, in about two weeks this force will be augmented by many more.

Foundation lines for the new building have been laid by the surveying crews and concrete piles on which the foundation will be laid are now setting. According to Charles O'der, consulting engineer representing the architect, William Knowles, the piles will be ready to be driven into place next week.

Police To Learn Ballistic Science

CHICAGO, Feb. 8.—UP—The science of ballistics will be taught to Cook county's prosecution staff the state's attorney's office announced today.

C. C. Realtors Hit State Body

REVIVAL OF RICKS CASE SEEN

MARTINEZ, Feb. 8.—According to reports freely circulated in Martinez tonight, the Contra Costa county Board of Realtors may vote to withdraw from the California Real Estate association as a result of the granting to C. A. Ricks a 1930 realtor license.

Whether or not this will happen may become an issue for final determination at the meeting in Martinez next Wednesday night.

It is reported that the board is widely divided in opinion both as regards the Ricks case and the apparent decision to grant Ricks a license. It was also rumored that the decision was reached even before Fred Athearn conducted the rehearing here.

According to reports from Sacramento, Stephen Barnson, state real estate commissioner, W. H. H. McCoy responded with a toast to the boys.

Pep songs were sung by the audience, under the direction of Rev. Lindemann.

Boy Scout Band

Music was furnished during the evening by the Boy Scout band, under the direction of E. L. Orr.

Today, Scout Sunday will be observed by a special ceremony at (Continued on Page 8)

House Passes Transfer Bill

WASHINGTON, Feb. 8.—UP—The Williamson bill to transfer the prohibition bureau from the treasury to the justice department, as recommended by the Wickersham law enforcement commission, was passed without a record vote.

This was the first of the administration's prohibition enforcement measures passed by either house of congress.

Both wetters and dryers supported the measure on the ground prohibition enforcement is logically a duty of the justice department rather than the treasury.

The bill now goes to the senate, where prompt enactment was anticipated.

Military Rites For Dr. Crawford

Dr. Charles A. Crawford deceased will be accorded full military honors at his funeral services in San Francisco Monday.

The remains will be taken from Halsted's mortuary, and military services will be held at the Presidio in San Francisco at 2:30. The remains will be interred in the officers plot at the presidio.

FATHER, SON BANQUET LAST NIGHT OPENED BOYSCOUT WEEK HERE

With more than 150 fathers and sons in attendance, Richmond boy Scouts were hosts last night to their fathers at a banquet in the Memorial hall. This event officially opened Boy Scout week in Richmond.

Thomas G. Gray, head of the county court of honor, was the speaker of the evening, and presented an interesting talk on Scouting.

A feature of the evening was the recommitment ceremony participated in by every Boy Scout at the meeting. At eight o'clock, the boys, under the direction of Aubrey Wilson, chairman of the local Scout district, again pledged themselves to the ideals of Scouting.

Wilson Presides

The meeting was called to order by M. F. Beebe, chairman of the banquet committee. He introduced Aubrey Wilson, who acted as master of ceremonies.

The boys were led in a salute to the flag by Robert F. Cox, local Scout executive and Rev. C. G. Lindemann pronounced the invocation.

"America the Beautiful" was sung by the entire audience.

Eagle Scout Hume Vaughan then gave a toast to the dads and W. H. McCoy responded with a toast to the boys.

Pep songs were sung by the audience, under the direction of Rev. Lindemann.

Boy Scout Band

Music was furnished during the evening by the Boy Scout band, under the direction of E. L. Orr.

Today, Scout Sunday will be observed by a special ceremony at (Continued on Page 8)

House Passes Transfer Bill

WASHINGTON, Feb. 8.—UP—The Williamson bill to transfer the prohibition bureau from the treasury to the justice department, as recommended by the Wickersham law enforcement commission, was passed without a record vote.

This was the first of the administration's prohibition enforcement measures passed by either house of congress.

Both wetters and dryers supported the measure on the ground prohibition enforcement is logically a duty of the justice department rather than the treasury.

The bill now goes to the senate, where prompt enactment was anticipated.

SON SUCCEEDS A. P. GIANNINI

SAN FRANCISCO, Feb. 8.—UP—L. M. Giannini, 34, was elected president of the billion dollar Transamerica corporation today, succeeding his father, A. P. Giannini.

The elder Giannini, who founded Transamerica, did not retire but will serve as chairman of the advisory committee.

Elisha Walker New York, was elected chairman of the board of directors and of the executive committee. Jean Monnet, New York, was elected vice president.

After the stockholders meeting and election it was announced that Walker, Monnet and their associates in the Bancamerica Blair corporation had become heavy stockholders in Transamerica on a permanent basis.

The Transamerica corporation is an investment corporation, controlling the Bank of Italy, founded by A. P. Giannini, the Bank of America of California, the Bank of America of New York and other subsidiary corporations.

Upon assuming the presidency of Transamerica L. M. Giannini said:

"We are pleased with the results of the first year of operation of Transamerica corporation as a holding company. In reporting earnings of \$20,000,000 in a year of such unprecedented market readjustments as we have been through the expectations of its founder, A. P. Giannini."

"This first year has seen the accomplishment of the difficult task of amalgamating the various affiliated corporations into one large holding company and the solidifying the position securities."

More than 200 persons crowded the banquet hall of the hotel in an overflow meeting. Representatives from all parts of the state and particularly this section were present and expressed their views on the project. Figures and records were produced by various speakers to show the encroachment of salt water on rich agricultural land and the fact that industries which 15 years ago pumped water from the straits to supply their needs were now forced to do without it.

Bull Preskies

E. B. Bull, vice president of the Richmond chamber of commerce acted as toastmaster of the evening and introduced the members of the legislative committee, the speakers and other dignitaries.

Those introduced included: Senators H. C. Nelson, of Eureka; Will R. Sharkey of Martinez; and E. A. Muller of El Cajon; Assemblymen E. S. Crittenden of Tracy, chairman of the committee, Van Buren of Exeter, secretary of the committee and R. P. Easley of Antioch, William Jones of San Francisco, Senator Tom McCormick of Solano county; Jack Pettit of San Francisco; Sheriff R. R. Veale, who escorted the caravan through Contra Costa county today; Mayor A. L. Paulsen who welcomed the delegation to Richmond; Maj. Chester Hunt, as representative of the Oakland chamber of commerce; Hollis Thompson, secretary of the Berkeley chamber of commerce; Ed Hyatt, state engineer, C. W. Schellor, president of the Salt Water Barrier association; William Buchanan, chairman of the Contra Costa county board of supervisors; James N. Long, supervisor from this district; R. N. White of Contra Costans associated; Hugh H. Donovan, mayor of Pittsburg; Ralph Bergstrom of the Certain-teed Products company; Paul Wetmore, first vice president of the Salt Water Barrier association of Benicia; William Pierce of Suisun; Jack Thornton, sheriff of Solano county; P. M. Sanford president of the Richmond chamber of commerce; Fred Parr of the Parr-Richmond Terminal corporation, Harry Ellis of the Richmond industrial commission; Warren McFrye of the San Francisco chamber of commerce; and others.

Have You a Perfect Child?

NO MOTHER, we trust, is so busy cooking cereal and spinach for her children.

Laundrying innumerable rompers and frocks, mending small stockings, sewing on buttons.

Settling quarrels, answering questions.

Suggesting things to do on stormy days—

No such mere details of being a mother of pre-school youngsters will, we hope, so take up her time.

That she has none left in which to apply to Jackie and Marie.

The brand-new Perfection Questionnaire just provided for children between two and five.

By Dr. Ruth Andrus, associate professor of education at Teachers College.

And formerly acting director of the Institute of Child Welfare Research.

The busy mother will be overjoyed to realize that the new Perfection Questionnaire contains ONLY 1311 questions—

Which occupy a mere fifteen printed pages—

For testing the perfection of a child's intelligence, personality and chances of becoming a law-abiding citizen!

Instructions for applying this yardstick to the child's personality involve keeping a detailed diary of the youngster's actions during three given periods of one hour each.

And then checking the results.

Against a list of desirable habits and responses provided by Dr. Andrus.

Instructions, we understand, do not instruct.

As to when a busy mother can possibly find time to use them—

So, for her benefit, we abstract a few of the tests.

To which the perfect child between two and five conforms.

Beneath each test we print, in italics, an imperfect mother's comment, as follows:

The perfect child can dress and undress himself, even to buttons up the back.

Imperfect Mother: Maybe he could, if I let him take all day for it.

But he has to get ready for breakfast when it's ready for him!

The perfect child can manipulate shoe laces and gashaws.

Imperfect Mother: Except when his laces get into a hard knot—three times out of five—

And when his hands are so cold, from playing in the snow.

That he'll never get his gashaws undone unless I helped him.

The perfect child can go up and down stairs on all fours.

Imperfect Mother: He can indeed—but not if I see him first!

How long do you suppose the knees of his stockings last on stairs?

He can climb on to anything three feet high.

Imperfect Mother: You don't know the half of it—he can climb the fire escape, the stories high—

And he got the window I took my eyes off him for ten minutes!

He can manage his scooter and bicycle.

Imperfect Mother: He can manage not only his own but those belonging to the street next door!

He manipulated the scissors so successfully

that he cut all the pictures from his two best picture books.

And cut off his eyelashes!

He enjoys eating.

Imperfect Mother: Nobody ever more enjoyed eating than my son!

But he got him to finish his oatmeal!

He will not talk with his mouth full.

Imperfect Mother: But he'll periodically try to do it—just to stop him!

He exercises self-control when crossed.

Imperfect Mother: Yeah? Does any child—EVER?

He is prompt to appointments.

Imperfect Mother: Not at bedtime—it's always "just a little while longer, mother!"

He recognizes the rights of others.

Imperfect Mother: Not when a little sister has a new blackboard—

And Santa tactlessly neglected to bring him one just like it!

He hangs up his clothes without being reminded.

Imperfect Mother: No child under five ever did that, all the time.

Or ever picked up his playthings, at

Republicans Train Guns on Walsh and Hull to Soothe Probable Loss of Senate for Hoover Next Fall

WASHINGTON, D. C.

Reconciled to the obvious fact that Herbert Hoover will have a more hostile Congress on his hands during the concluding two years of his term, Republican leaders who are planning the 1930 election campaigns are searching for ways to soften the blow.

A current theory is amusing. Facing the possibility of losing eight Republican Senators, they are hoping to knock off two outstanding Democrats in the belief the country might hail that as a triumph of the first magnitude.

The biggest guns are being oiled and polished for use against Senator Thomas J. Walsh of Montana.

The next most important Democratic actor will be in Tennessee, where it is a Republican hope that Cordell Hull, an outstanding figure in the House of Representatives and a former chairman of the Democratic National Committee, might be defeated should he receive the Senatorial nomination as he undoubtedly will unless Andrew Jackson's State no longer desires men of real stature.

Warfare in Nebraska may prove a sniping campaign from the Hoover side, since the National Administration will tread cautiously before inviting a rebuke through the renomination and re-election of the gallant commoner, George W. Norris. Republican activities against him will be conducted by "under cover" men, and if the White House loses, it will be asserted the President had nothing to do with it.

BISHOP CANNON LOSES HEART

The fight in Montana on the Teapot Dome, prosecutor assumes importance for another reason.

The Virginia gubernatorial contest having gone the way it did, Bishop Cannon has no heart any more. For his widely advertised purpose to retire Carter Glass from the United States Senate the Bishop has departed for his diocese in Africa, of which little, if anything, ever had been heard around Washington during all the years he has been prominent in politics.

Some sort of executive committee management of Republican headquarters here might be undertaken if the fact remains that Senator Tydings has only three States which might be dubbed tough spots. They are Montana, Tennessee and New Mexico.

Moses has New Jersey, Massachusetts, West Virginia, Delaware, Rhode Island, Colorado, Oklahoma and Kentucky, in addition to holding Illinois, Ohio, Idaho and some other places.

Care of Flannels

Flannels should always be carefully washed. Soap should never be rubbed directly on flannels. Make a suds of pure soap flakes and rinse in clear lukewarm water and if a few drops of ammonia are added to the water when washing flannels they will keep soft and the color will be preserved.

When flannels become hard and shrunken they can be restored to their original softness by soaking them in gasoline for a few hours then washing them in soft soap suds and rinse in water of same temperature.

To shrink new flannel soak it for twenty-four hours in cold water and hang it on the line without wringing too dry.

The World's Window

By Pierre Van Paassen

A Modern Eve

Is Mile. Jane Renouardt, the actress, correct when she says that Eve in the Garden of Eden longed for a modern gown, silk slippers and jeweled handbags? Mile. Renouardt said so to the five solemn, black-robed Judges who tried her on a charge of breach of contract brought by her manager, M. Rene Reding. Mile. Renouardt had undertaken to play the leading role in a revue entitled "Eve Tante Nue" to be produced in Brussels and Paris. Her partner, who represented Adam, of course, had nobly done his share. He came out on the stage clad in a lion's skin. Little Cain and Abel also filled their role to perfection. But Mile. Renouardt, she came out all topped up in the latest Rue de la Paix fashion. A big fur around her neck, a blue velvet gown, which contrasted with—or is it matched?—her golden blond hair. Her manager almost had a fit. The audience howled, especially when she said, "Hello, Adam, ain't you cold, boy?" Her manager had been mortified beyond words, humiliated as no other man ever had, he told the Judges. He asked damages. "That was my conception of the Eve role," said Mile. Renouardt when asked for an explanation by the President of the court. "But the Bible does not give us such a version, Mademoiselle."

He remarked the Judge timidly. "You were supposed to give a realistic interpretation of that charming setting of the Garden of Eden, of which we all learned to admire the poetic and touching simplicity at our mother's knee. Is it not so, Messieurs?" he said, turning to his colleagues on the bench. But Mademoiselle would not agree, and the Judges took weeks to consider the case before rendering a verdict.

A Bargain

The theatre of the Grand Guignol, which specializes in horrors, is up to its old tricks. The new program that it offers for the next three months is gone from beginning to end. A new and apparently inexhaustible source of inspiration has been discovered by the gentlemen who write the tragedies and dramas of the kind welcomed by the Guignol management. The source in question is the Russian revolution, more especially the Tcheka, the revolutionary secret police of the Soviets. "Red Shadows" is the title of one of the dramas. It pictures Moscow, in the offices and jails of Tcheka. Nothing more horrible can be imagined, we should think, only the next program will perhaps eclipse the present. There is one piece that deals with a guillotine execution in which the head actually drops in the sawdust basket and the blood spouts clear across the stage. It's very realistic and cures one once and for all, we should imagine, of a desire to witness a public execution in front of the Sainte Prison or elsewhere. As is always the custom, Guignol's program ends with a delightful one act comedy, probably to spare members of the audience an inevitably ghastly nightmare after the bloodlettings. Still the comedy does not altogether succeed in effacing the horrible memories. Next to us in a seat in "the gods" at the premiere happened to be an elderly gentleman, who now

and then stooped over to write something on his program. At the close of the show, as we were moving off, he said: "Well, let's see, two corpses in the first act; seven in the second, sixteen in the third, one in that guillotine piece, that's twenty-eight altogether. I paid twenty-five francs for my seat. That makes one corpse for every franc and a little better. It's a bargain, Monsieur (he turned to me), especially for those Americans that come here!"

Desperation In Jazz

An invention of the Hungarian organ technician, Francis Szekeres, threatens to deprive the jazz players of the whole world of their daily bread. The Budapest jazz orchestras take the matter so seriously that they have addressed a formal appeal to Herr Szekeres to suspend the manufacture of his invention. The apparatus, which is called a Breakophon, produces from the hands of a single operator, working the keys, every cacophony dreamed of by the jazziest in all European states and in the home of jazz, America. Two months ago a German firm began the production of the Breakophon jazz organ. Herr Szekeres, ignoring the protest of the Budapest musicians, had his first complete instrument produced before the Budapest Academy of Music. He has quickly learned that the lot of musicians in Hungary is a hard one. A letter reached him shortly after signed "Desperate Jazz Players, Hungary," threatening that unless the manufacture of the Breakophon was promptly suspended, a bomb explosion at his home would deprive him of all further interest in the success or otherwise of his invention. Tantrums

WHILE riding in a street car recently I saw a most distressing sight. A little girl, about four, was rolling all over the floor of the car, screaming at the top of her lungs. Her mother looked on, absolutely helpless. Some of my fellow passengers upbraided the child, others made overtures, but all to no avail. Finally the mother grabbed the struggling youngster and made a hasty exit.

Are children ill when they act in the uncontrolled fashion, or have tantrums a mental cause? Sick children and those who are overtired are easily aroused to anger; but most of the time the cause of these exhibitions is a mental one. Often a child stages a scene in order to get something which has been refused. The more often he finds that this scheme "works," the more often will he resort to it. Then, too, children love attention, and what gets more notice than a noisy exhibition of temper? Sometimes youngsters are merely acting out responses which they have become closely associated in such cases parents usually say that the child has inherited his temper from his father or grandmother. But I strongly suspect that the habit has been "caught," rather than inherited. On the other hand, some of these outbursts are perfectly natural responses to unfair handling, to too much restriction or interference. We may be sure that there is always some reason to account for this sort of behavior, and we won't be able to help the child very much until we have found it.

Most adults, however, act first and think afterward. Usually their first reaction to a tantrum is to get angry themselves, and to spank or restrain the child in some way. How does such treatment affect the youngster? He gets angrier and has an even more violent attack. In most cases our best policy is to quietly leave the room, indicating to the child that he may call us when he is in a more pleasant frame of mind. We shall find that these spells are of much shorter duration, when the young one has to audiences. If he accomplishes nothing by his tantrum, not even getting a "rise out of us," he will soon realize that such conduct doesn't pay. When the youngster returns to normal, the best thing to do is to entirely ignore the episode or to have a heart to heart talk about it, not scolding, simply reasoning the whole matter out together. Reasoning with a child, however, while he is in an excited state, is absolutely futile.

Gradually we can teach our youngsters that temper tantrums accomplish nothing and that there are better ways of meeting situations, at the same time constantly showing them our faith in their ability to control themselves.

The Farmer's Advice

By Alfalfa Smith

THERE may be some people in this world who envy you in your job. Why do YOU hate it?

It's all a matter of thinking, is it not?

What about your thoughts, anyway? Are they PLEASANT THOUGHTS?

WHAT DO YOU THINK ABOUT?

One of the most beautiful experiences one can have is to be able to get an idea in your head and then see it work out. Everything in life unfolds and your good ideas will unfold for you and make money for you if you will cultivate your thinking.

Your job is what you think it is. To make it attractive, think of attractive thoughts about it. NEVER knock your job. That shows that you are a fool for keeping it.

Be yourself and—laugh occasionally.

TELLING THE WORLD

By Neal O'Hara

THE BIGGEST BIOGRAPHY OF THE YEAR

THE life story of Primo Carnera, the largest heavyweight in the world: Primo Carnera was born in Italy, weighing 7½ pounds, and started growing up immediately. At the age of four months he learned the knack of putting his toes in his mouth and nearly strangled himself. They gave him a beer keg filled with nuts and bolts for a rattle and tied a tablecloth around his neck for a bib. To give him plenty of fresh air, they'd tuck him into a flat car of the cable railroad and wheel him up and down Mount Vesuvius.

When little Primo was a year and a half old, they squeezed 13,000 tangerines in a wine press every morning for his orange juice. They fed him milk direct from the five-gallon can, using a rubber football bladder as a nipple. The little fellow prospered and grew healthy. They put his crib on a gun emplacement so it wouldn't break through the floor and when the folks wanted to weigh him they placed him on the hay scales down at the corner feed store.

By the time Primo was five, he was handing down his old pants to his papa. Everybody said he'd grow up to be a big, strong boy. As a child, Primo had great fun opening up oysters with his teeth and rolling a wheel of an ox cart for a hoop. Then he entered kindergarten and always carried his school books home in his vest pocket.

Primo continued to grow and grow. He weighed 215 pounds by the time he reached the fifth grade and the teachers gave him A in everything, which shows how smart his teachers were. At graduation his daddy presented him with a bass viol, but Primo thought it was a guitar.

When he became sixteen, Primo began wandering all over Italy. One day he hailed a gondola in Venice and started to get in. Twenty-six drowned and three were rescued. Another time,

when having lunch near St. Mark's in Venice, he took a bite of corn on the cob, spit it out and fed 12,000 pigeons.

Another time, when wandering in the north of Italy, Primo got tired and leaned against an imposing structure. It has been called the Leaning Tower of Pisa since that day as Primo's broad back pushed it fifteen feet out of plumb. By that time he was weighing 265 and still growing. And about that time Fascist agents invited him to leave his native land as Mussolini wanted the undisputed title of being the biggest man in Italy.

Primo sat down on a horse trough to think and though the trough didn't break, it sagged a little. He thought his best move was to come to America and be a ditch digger. At that time they were planning the Holland Tunnel under the Hudson in New York, and Primo figured if he could get the digging job, he would have steady employment for two or three weeks at least. But before he even sailed they hired 3,000 other fellows to do the digging. So Primo went to Paris and learned to box.

He had great success at this mainly art and finally sailed for America. On the boat he took the glass out of a porthole window and now uses it for a monocle. Primo is having a great time in New York. The American Trust and Awning Company is his tailor. The Bethlehem Shipbuilding Corporation has taken all his shoes, and he uses a pitchfork to wind his spaghetti around.

A DISH A DAY

By Nancy Dorris

Copyright Press Publishing Company (New York World) 1930

According to the culinary dictionary an au gratin and a scalloped dish have the same meaning—baked in a dish. Over a mixture moistened with sauce or milk crumbs are scattered and the whole baked until the sauce bubbles through the crumb covering. Cheese may be sprinkled over the crumbs, but is not a characteristic ingredient of an au gratin dish.

The name scallop is better known in this country than the French term au gratin, and probably originated with the scalloped shells first employed to hold the various mixtures to be baked.

An au gratin or scalloped dish is merit serving frequently during late winter and early spring when warm food invites the appetite. Coming from the oven they taste so good to hungry skaters or outdoor enthusiasts. Then, too, the scalloped dish waits for late comers without loss of flavor and appearance.

Among the savory scalloped treats none compares the ham and sweet potato main dish as happily as

CORN AND PEPPER SCALLOP

2 eggs, beaten well

2 tablespoons green pepper

2 cups corn, canned or fresh

1/2 cup milk

1/2 cup buttered crumbs

1/2 cup grated cheese (optional)

Salt and pepper to taste

Oven temperature: 350 degrees F.

Baking time: 15 to 20 minutes

Servings: Six to eight.

SAVORY CORN AND PEPPERS

2 green peppers minced

1 tablespoon butter

2 cups fresh or canned corn

2 cups medium white sauce

1/2 cup buttered crumbs

Salt and pepper to taste

Oven temperature: 350 degrees F.

Baking time: 10 to 15 minutes for ramekins; 20 to 25 for large dish.

Servings: Six.

Saute the minced peppers in the butter two minutes. In a butter scallop dish place a layer of corn, a layer of peppers and one of well-seasoned white sauce. Repeat until all materials are used. Over the top scatter the buttered crumbs and bake until nicely browned. The individual ramekins bake in less time than the large dish.

Society NOTES

AMARANTH FETES STATE OFFICER HERE

Mrs. Elizabeth Gerlach, grand representative of Amaranth was last night feted at a meeting of Harmony Court, Order of Amaranth in the Masonic hall.

Past matrons and patrons of 1928, when Mrs. Gerlach served as worthy matron for the local court, were also honored.

A delightful program was presented, and a delicious supper was served.

The banquet hall was beautifully decorated, and members enjoyed what was termed as a "wonderful" evening.

The committee in charge of the affair was headed by Mrs. Minnie Phillips.

Mrs. Velma Mae Quinn, royal matron, and Robert J. White, royal patron, presided over the meeting, and welcomed the visitors.

Standard Bearers Of Wesley M. E. Hold Session

The Standard Bearer of the Wesley Methodist church entertained at a pot luck dinner in the church recently, with Anna Bengtson presiding.

Jessie McKelzie gave "The Olive Branch" and "The Open Bible." Devotions were led by Arlene Ellis.

The next book, "The One Who Went and the One Who Found" was given by several of the girls.

The "Three Dror Stewardship" ceremony was presented by Valeria Mills. During the ceremony several solos were sung by Anna Bengtson.

Those present at the meeting were: Anna Bengtson, Florence Christopher, Arlene Ellis, Lola Howman, Minnabel Howman, Jessie McKelzie, Valeria Mills, Serina Rust, Marjorie Vestal, Sarah Waite, Woodworth, Jessie Woolley, Evelyn Yeaton, Mrs. Pennington, president of the auxiliary, Mrs. Lindeman and the counsellor.

Miss Viola Treanor has gone to Astoria to attend the regional conference of Girl Scouts being held over the week-end. Miss Treanor is one of the leaders of the Girl Scout movement in Richmond.

National leaders of Girl Scouts are attending the meeting.

Viola Treanor At Astoria

Miss Viola Treanor has gone to Astoria to attend the regional conference of Girl Scouts being held over the week-end. Miss Treanor is one of the leaders of the Girl Scout movement in Richmond.

National leaders of Girl Scouts are attending the meeting.

YEOMEN AT BOOSTER MEET IN SAN JOSE

Headed by Bert Healey, honorable foreman of Richmond Homestead of Yeomen, many members of the homestead attended the boosters team in the initiation.

Bert Healey served as "Cedric" as Richmond Homestead's offering to the team.

A sumptuous banquet was served and an enjoyable time was reported by the local members.

Luella Mitchell Entertains Friends

Miss Luella Mitchell was hostess to a number of friends at an informal dinner and dancing party at her home, 758 Eighth street recently. High bridge scores were turned in by Miss Margaret Desmond and Carol Fisher, with Miss Theresa Fracchia winning the consolation prize.

Among those present were: Mary Joyce, Margaret Desmond, Theresa Fracchia and Luella Mitchell; John Hamilton, Robert Franklin, Edward Smith and Carol Fisher.

Norman Whittlesey Entertain At Cards

Mr. and Mrs. Norman Whittlesey entertained at a card party in their home on Downer avenue recently. Mrs. M. Thiel and Arthur Brown won bridge prizes.

The guests were: Mr. and Mrs. John Vanderwerf, Mr. and Mrs. W. Rook and son, Martin, Mr. and Mrs. R. W. Pearson, W. D. Clingman and Arthur Brown.

Tau Nu Tau Club Meets Tomorrow

The Tau Nu Tau club will meet tomorrow night at the home of Miss Helen Gately in the Stege district. The club is composed of graduates of the class of 1923 of the local high school.

DeMolay News

Final preparations for a pal's dinner to be held Tuesday night in the Hotel Carquinez are being made by the Richmond chapter of De Molay.

The dinner will start at 6:45 and will be under the direction of Jack Hosmer and Jack Carr. Joseph Zink will be master of ceremonies.

Wood Display Shown Here By Scout Troop 8

With the celebration of the 20th anniversary of Scouting, work of a local Boy Scout troop has been placed on display in the windows of Merrill's Drug store at Twelfth street and Macdonald avenue.

The entire display has been prepared by Troop No. 8, under the direction of Scoutmaster W. T. Shock.

The feature of the display is a collection of 47 different kinds of woods that the Scouts collected while on hikes. The wood is cut so as to show the natural grain and the nature of the growth.

The collection offers a valuable lesson in woodcraft.

There are also exhibitions of carving, woodwork and plaster casting done by the members of the troop.

The local Kiwanis club sponsors the organization.

MADISON, Wis.—A teacher of Latin at Wauwatosa high school, Miss Esther Bilstad is the first Milwaukee county woman to own her airplane—a two place cabin ship.

Feb. 10, the Boston Maru, J. J. Moore and company, loading oil for Australia.

Feb. 11, the Silver Ash, General Steamship company, loading oil for the Orient.

Feb. 12, the M. S. Borgestad, J. J. Moore and company, loading oil for Australia.

Feb. 13, the Silver Fir, General Steamship company, loading oil for Australia.

Feb. 14, the West Cusseta, J. J. Moore and company, loading lumber and general merchandise for Australia.

JAPAN SCORES U.S.-BRITAIN PLANS

(Continued from Page 1)

duce her aggregate of 15 inch guns to 60.

After scrapping three capital ships—Wyoming, Florida and Utah—the United States' capital ship fleet of 15 vessels will aggregate 24 guns of 16 inches, 124 guns of 14 inches and 12 guns of 12 inches.

This fleet will be uniformly as large or larger than the British fleet with the exception of the British Nelson and Rodney, which are of 35,000 tons each. The American vessels will be slower.

They will possess more guns but have shorter range than the British. To overcome this difficulty, the United States has begun elevating guns on capital ships. Work on the Nevada and Oklahoma has been completed and the Pennsylvania and Arizona are now being modernized.

JAPAN'S ATTITUDE CAUSES UNEASINESS

LONDON, Feb. 8.—Japan's stiffening attitude on its naval demands caused uneasiness among leaders of the five power naval conference today as they adjourned for the week end.

Tokio appeared to be in a position to block the Anglo-American battleship scrapping and cruiser limitation if it insisted on taking the responsibility.

Tokio dispatches quoting the government spokesman as insisting on Japan's seventy per cent ratio against Britain and the United States without alteration, caused fear that agitation in Japan would create a situation making it impossible for the Japanese delegation here to recede from the 70 per cent demand.

Reports that Japan would become more moderate after the approaching elections there did not influence the United States delegates, who did not depend on that element. It was argued an aggressive attitude by Japan now might undo the good will work of the Washington conference and revive old fires.

From the British and American viewpoint, it was argued Britain had scaled down from 70 to 50 ships and the United States had yielded three big cruisers in the face of strong pressure from home to retain them. Therefore, the delegates want Japan to show a willingness to compromise.

It was noted that Japan appeared favorable to extension of the battleship building "holiday" but some dispatches reported opposition in Tokio to scrapping one Japanese ship, reducing the capital strength from ten ships to nine, as provided in the tentative Anglo-American plan.

Church and Sunday School

THE FIRST BAPTIST CHURCH
Barrett at Thirteenth street,
Richmond, California.

Kenneth L. Wallace, minister.
The Chung Mei boys under the direction of Dr. Charles R. Shepherd will present "Love Divine" during the reign of Emperor Nero at the evening service at 7:30.

At the morning service at 11 o'clock, Rev. Wallace will preach on the subject "A Man Who God Knew." There will be special music by the choir.

9:30 a. m.—Prayer circle will meet in the pastor's study.

9:45 a. m.—Church school will con with Mr. Miller as superintendent. There are worth while classes for all ages.

2:00 p. m.—The young people of the B. Y. P. U. will meet at the church and be ready to leave for us in the "Home-like" church in the heart of the city.

6:30 p. m.—Three young peoples societies, interesting programs have been planned for each society.

Monday, 7:30 p. m.—Men's banquet in San Francisco at the Hamilton Square Baptist church, in honor of Mr. Miller, president of the Northern Baptist convention.

Wednesday, 7:30 p. m.—Mid-week prayer service.

Thursday, 7:00 p. m.—Royal Ambassadors, 7:30 p. m.—Choir practice.

Friday, 6:30 p. m.—Men's Brotherhood dinner.

Friday, 1:30 p. m.—Circle No. 3 will meet at the church.

Friday, 2:30 p. m.—Circle No. 2 will meet at the church.

On February 18th, the women are invited to meet for the purpose of organizing a B. Y. P. U.

7:30 p. m.—All young people are invited to meet for the purpose of organizing a B. Y. P. U.

7:30 p. m.—Evening services—Beautiful pictures will be shown of the young peoples' summer assembly at Astoria, Calif.

7:30 p. m.—Wednesday evening, mid-week church services.

The church endeavors to serve the community. You are invited to worship with us.

FIRST METHODIST
EPISCOPAL CHURCH
Richmond and Martina Avenues.

Rev. E. H. Prince, pastor.
Residence, 226 Nicholl ave.
Phone, Richmond 824-V.

Choir director, Mrs. James Stuart. At the organ, Mrs. Irene Mythen.

Church school at 10:00 a. m.—Mrs. Hattie Weston, school superintendent.

Worship and preaching at 11:00. The order of worship is as follows:

Prelude—Mrs. Myrtle Smith.
Call to Worship—"O Taste and See That the Lord is Good."

Response, "Blessed is the Man That Trusteth in Him."
Hymn 106—"O Worship the King."

The Psalter—5th Sunday—Morning. The Gloria Patri.
Antiphon—"Let the Earth Rejoice" (Adams)—Choir.

Offertory, Mrs. Myrtle Smith. Announcements. Solo, "How Lovely are Thy Dwellings," Mrs. Marion Kilo. Hymn 143—"In the Cross of Christ I Glory."

Sermon—"Lord Me Your Taste." Benediction—Doxology. Postlude.

ST. MARK'S CATHOLIC CHURCH
Corner Campbell, pastor.

Corner Forti-fifth street and Potrero avenue.

Usual services will be held at the St. Mark church on Sunday.

Sunday school at 9:45—Mr. V. E. Skiles, superintendent. All of the children are urged to be present as well as the older people.

Story for the children in connection with the morning service.

Junior Endeavor at 11:20. All children of Junior age are invited to the morning service.

The theme for the morning service of the pastor will be "Hungering and Thirsting for Righteousness."

In the evening the pastor will review the last chapter of the book entitled, "The Crowded Way." The study of this book has proven very interesting.

All people of the neighborhood are invited to all the above services.

WESLEY METHODIST
EPISCOPAL CHURCH

Corner Ninth and Nevil ave. C. Lindemann minister.

Church school at 9:45 a. m. Mrs. Chas. Wolfe superintendent. Classes for all ages.

Morning worship at 11 o'clock. Sermon theme, "The Quest."

Evangelistic league in the church parlors at 6:30 p. m. A service for young people by young people. All are welcome.

VISITORS LAUD NEW NASH MACHINES

Visitors are finding food for comment in the striking advancements and refinements which mark the new "400" twin-ignition six, according to Roy K. Dorr, Eleventh street and Bissell avenue, local Nash dealer.

"On a wheelbase of 118 inches, its motor and mechanical units, have been refined to that last degree, the frame widened in the rear to provide maximum seating comfort and its equipment engineered to perfect operating coordination," Dorr said. He continued:

"All sedan and coupe models of the new '400's' have an adjustable front seat of a distinctly new type, which provides individual riding comfort at the turn of a hand lever.

Greater power is delivered by its famous Nash twin-ignition, high compression, valve-in-head and seven-bearing engine because of the increased bore, the aluminum alloy pistons, highly refined carburetion and studied reductions in the weight of reciprocating parts.

"New tubular type push rods are employed to provide less weight, more strength and quiet operation. A highly developed fuel pump and new low-speed carburetor jet keep the gas supply at a steady efficiency peak and prevent 'motor starvation' under heavy loads.

"Absolute motor temperature control is assured through automatic operation of handsome new built-in radiator shutters on the enlarged radiator. The new four-blade fan is mounted on roller bearings and is self-oiling. The water pump is featured by a floating-type pump shaft.

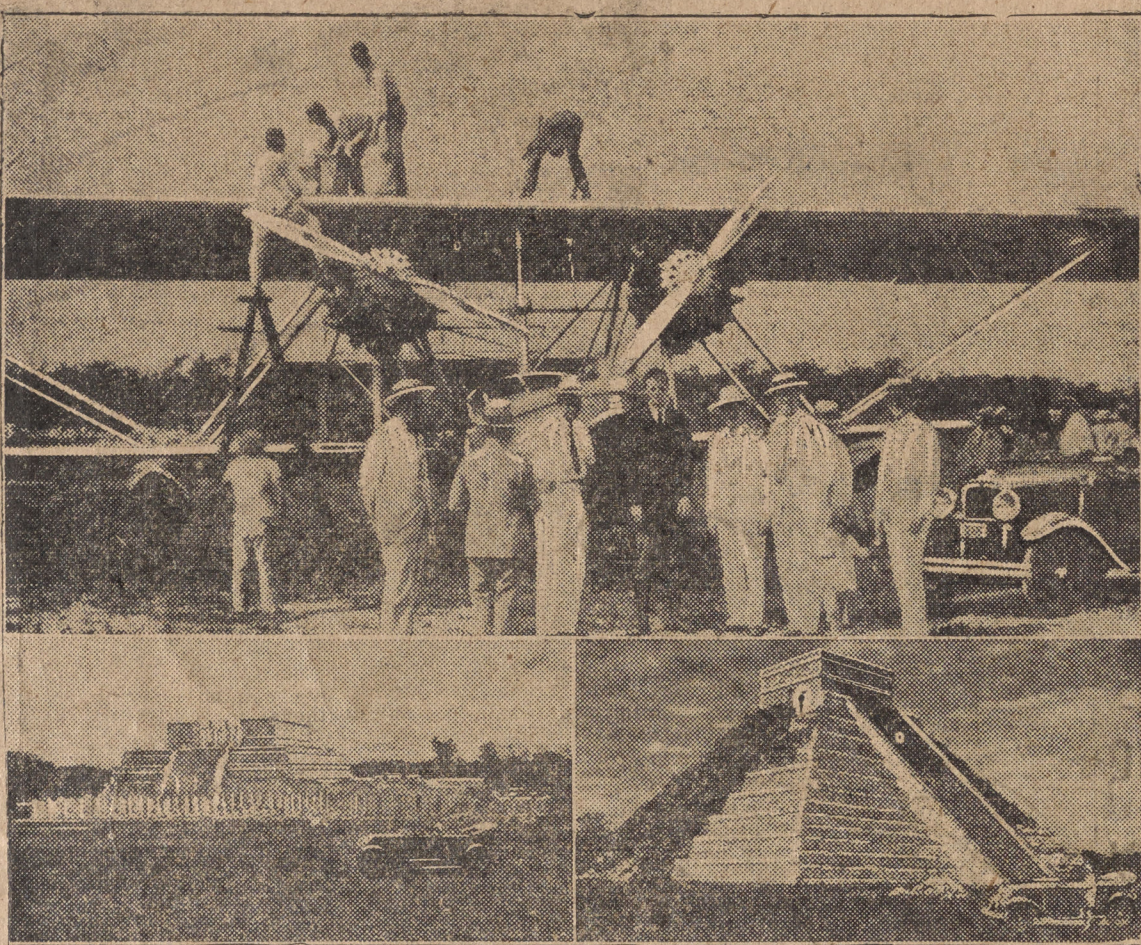

Advice Offered On Tire Inflation

Low air pressure in front tires on your car causes difficult steering, while low pressure in rear tires will cause swaying, according to the California State Automobile association.

SPECIAL

Baldwin built grand pianos, Art models, William and Mary, Spanish designs, Italian periods and lain cases, \$395, \$435, \$465, \$495, \$10 cash, \$5, \$10, \$15 monthly, free delivery. Will take your phonograph or piano as part payment. Get your Grand now. Cline factory Piano, Distributors, 347 1/2 St., corner Webster, Oakland, 2727

Lindy Uses Nash

WHEN COL. C. A. LINDBERGH made his recent exploration of the Mayan ruins, a Nash "400" was used by his party. Photos show Lindy and his plane and two views of the ancient ruins.

Gear Ratio Of Car Affected By Large Tires

Oversize tires will affect the gear ratio of your car, that is, a car covers the ground faster per revolution of crankshaft with oversize tires than it does with the smaller tires. The speedometer is also affected; it will not register correctly. Obviously, a change to oversize tires raises the vibration point as compared to speed.

Essentials Of Trouble Shooting

It is well to remember when diagnosing engine trouble that two things are essential; namely, fuel and spark. Always make sure the trouble has not originated at either source mentioned before making any other adjustments, advises the California State Automobile association.

Remedy Told For Oil Loss

One of the problems with which some engineers seem perpetually busy is that of preventing oil loss through leakage after the car has seen considerable service. In some cars the timing gears are particularly bad offenders when it comes to allowing the life-giving lubricant of the engine to drop away, according to the California State Automobile association. New gears whose full, close-fitting teeth will prevent the escape of oil often provide the most effective remedy for this trouble.

Cars Counted In Pupil Registration

There is now one motor vehicle registered for every child attending the public schools, according to the California State Automobile association.

NEW BUICK ROADSTER SHOWN

Buick's dashing new roadster, built on the long 132 inch wheelbase, made its first Pacific coast appearance at the Pacific Automobile show in San Francisco. With its chassis embodying all the qualities of Buick stamina and performance this new four-passenger roadster has been designed to present the ultimate in style, elegance and comfort.

Long low racy lines, with exceptional capacity in both front and rear compartments characterize the styling of the distinctive and beautiful body. Three sections of new and stylish color combinations are available, with fenders and other exterior parts colored to harmonize with the body. The smart, low top with tailored finish blends with the distinctive body lines. Two shades of fine, double texture, top material are available.

The interior of the new Buick roadster is complete in every detail and has smooth, cushion type finish with low, luxurious adjustable seat designed to provide the maximum of driving comfort.

New Colors

The three other color combinations in which the new car comes offers a wide variety of choice. One combination of colors is offered as follows: body in toga maroon with black moulding and Buick vermilion stripe, black fenders and sheet metal, black leather upholstery and natural wood wheels. Special wire wheels are offered in separate red.

Another combination consists of a green body with moulding in Bar Harbor tan and a cream stripe, fenders and sheet metal in Bar Harbor tan, brown leather upholstery and natural wood wheels. The wire wheels, as special equipment, are finished in Coronada tan.

The third color selection presents the roadster in El Paso tan body, Boulevard Maroon mouldings, Buick vermilion stripe, red leather upholstery, Boulevard Maroon fenders and sheet metal, and natural wood wheels. The special wire wheels are in Arrette red.

New Features

There are a number of features incorporated in the new model, which are really new in the construction of roadsters. The adjustable front seat, a feature heretofore confined to closed models, is included for the first time in roadster construction. The top is easily detached and has natural wood bows and plated slat irons. The back curtain is removable. Weather-proof side curtains with large, clear vision lights, are designed to fold into the door pocket. The dust hood is tailored and fitted and harmonizes with the car colors.

The interior trim of the new roadster, which is designated as Model 64, is of custom design. There is a tool compartment with lock in the left hand door; top and side cowl ventilators are fitted with dust screens; inside door handles are convenient and easy operating; at the top of the front seat is a large storage compartment, fitted with lock. An auxiliary door on the right side of the car provides easy access to the compartment under the rear deck, which is equipped with a large, comfortable seat. All details of the rear compartment are complete with floor mat, foot rest, side trimming and pockets.

The new car is equipped with the special Buick folding and ventilating windshield, which is full chrome plated and has rear vision mirror and chrome plated windshield wiper. Head, side and tail lamps are of the latest design and are full chrome plated, as are the head lamp posts in which all wiring is completely enclosed.

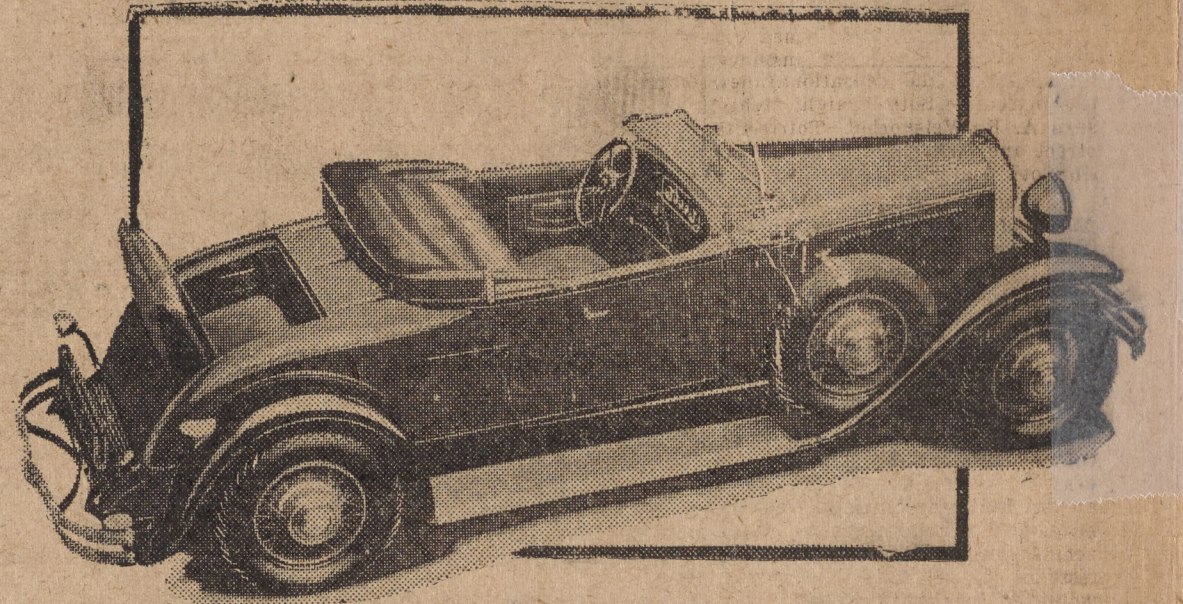

C. C. Kratzer, at Tenth street and Bissell avenue, is local agent for the Buick car.

U.S. Leads World Auto Registration

The United States leads all other countries in motor vehicle registration, with 24,493,124 units, according to the California State Automobile association, while the entire foreign registration is only 7,285,000. The United States has 3,005,614 miles of roads—its nearest rival is France with 440,085 miles.

tion in northern and central California, representing an investment of close to \$745,000 of which more than three-quarters has been expended by the motorists' organization.

Snappy New Lines

BUICK RECENTLY announced a new roadster, to be known as Sport Model "64". The car was first shown at the San Francisco auto show. It boasts 99 horsepower.

San Jose Will Build Grades

San Jose has taken steps to assure eight grade separations on the new line of the Southern Pacific company through that city, reports the highways bureau of the California State Automobile association.

The railroad company, in making a change of location of its tracks through San Jose, is securing a new franchise which stipulates that seven subways and one overhead viaduct be constructed at crossings of main streets.

Bridge Opened At Dedication

The new international suspension bridge between Detroit and Windsor, Canada, has been officially dedicated and opened to traffic, reports the touring bureau of the California State Automobile association. The bridge will be open twenty-four hours a day; the toll is fifty cents per car with driver and five cents for extra passengers.

High Compression Motor Valves Need Thorough Servicing

High compression must be kept high. This is not possible if valves are permitted to deteriorate. In a high compression motor, the valves are subjected to tremendous heat. If they are adjusted too closely, they will burn beyond all hope of repair. On the other hand, if they are allowed to become too loose, hot gases escaping over the valve seats will destroy them.

Alighting From Car On Left Dangerous

There is a trend toward relocating the gear shift lever in such a way as to permit the driver to leave the car on the right-hand side without inconvenience. Drivers in the habit of alighting on the left—the dangerous side—should notice the change suggests L. C. Evans, general service manager, National Automobile club.

Your Clothes

cleaned and pressed the modern way, hats a specialty. Cleanatorium, 316 Sixth street. Phone Rich. 468, mobile association.

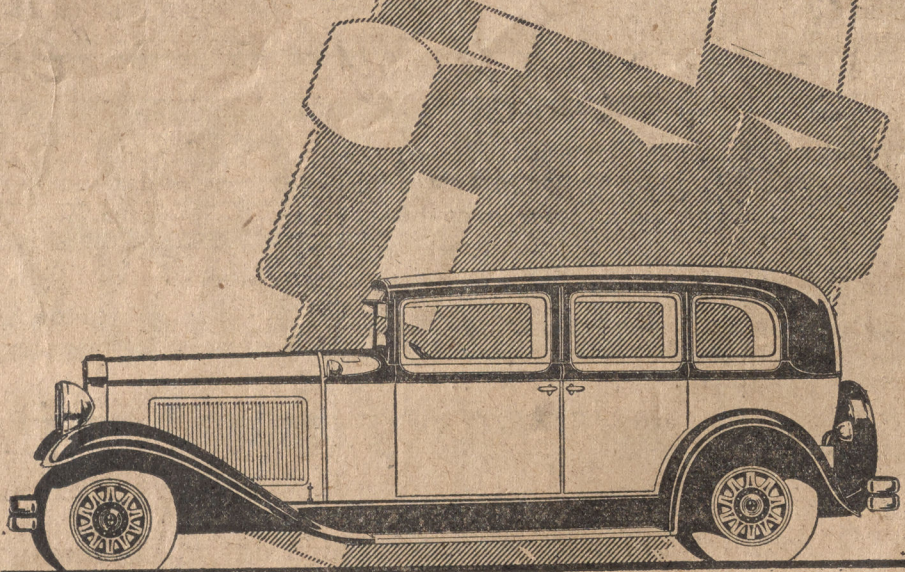

Rain Will Bring Ignition Trouble

"Wet ignition" troubles for motorists will begin as soon as the rainy season starts, according to the free emergency road service of the California State Automobile association which reminds drivers that water causes shorts in ignition circuits. The best preventive is to have the ignition wiring checked for faulty insulation. If the coil or distributor is on the front of the motor, or near the louvers, fasten a shield on the inside of the hood or radiator to keep the rain away from them. Remember, wrapping of rubber or any other material around the ignition units often does more harm than good. Moisture collects inside the rubber and does not evaporate readily.

Front Wheels Need Yearly Cleaning

It is advisable to remove the front wheels on your car once a year and clean the bearings thoroughly with gasoline, then pack with fresh grease according to the California State Automobile association.

THE 1930 NASH "400"

TWIN-IGNITION MEANS... SUPERIOR PERFORMANCE!

FOR a year and more motorists have been discovering that Nash Twin-Ignition performance is superior to the ordinary single-ignition type. Now, for 1930, Nash has introduced a new Twin-Ignition Straight Eight so superior to the other straight eights and V eights you will know it instantly—smoother, more vigorous, more delightful to handle, more easeful in riding qualities. Likewise the new Twin-Ignition Six proves by its performance the undisputed superiority of the Twin-Ignition principle. Other interesting new features of these new Nash cars are: built-in, automatic radiator shutters; cable-operated, self-energizing brakes; lifetime lubricated springs with flexible steel spring covers; improved steering design; Bijur centralized chassis lubrication; and Duplate non-shatterable plate glass in all windows, doors and windshields of the Twin-Ignition Eight.

Examine Valves Following Tour

After the summer tour has been completed the motorist who wants a smooth running car will see to it that the valves have not been thrown out by high speed driving; check the lubricant in the differential and transmission; have the chassis thoroughly lubricated; drain the trap of the air-cleaner; have the brakes equalized and give the car a thorough washing and polishing.

State To Share Federal Fund

California's share of Federal aid funds for road construction for 1931 will be \$2,501,170, according to the California State Automobile association. The total apportioned to the states is \$73,125,000.

Association Has Road Sign System

There are 84,000 street and highway markers in the road sign system erected by the California State Automobile association.

BUILT TO OUT-PERFORM

...the vital reason
why BUICK out-
sells every other
fine car by 2 to 1

Keep in mind, when you buy your car, that you are buying miles—and that you will get more and better miles in a Buick, as more than 2,400,000 owners have proved.

Buick builds so thoroughly—builds such extra strength and stamina into the Buick Valve-in-Head engine and sealed chassis—that many Buicks, five, ten or fifteen years of age, are still in service... and the speedometers of many of these cars register 100,000 miles and more.

Buick is built to out-perform. This, together with the beauty and comfort of Buick's Bodies by Fisher, explains why America is driving 700,000 more Buicks than any other car in Buick's price class... and why Buick today wins from two to five times as many buyers as any other car priced above \$1200. Come, see Buick's wide range of body types. Then take the wheel! A single drive will convince you that Buick is the big motor car value of the day.

Buick offers 15 body types, priced from \$1260 to \$2070, f. o. b. factory. Marquette offers 6 body types, ranging from \$990 to \$1060. Special equipment extra.

Convenient terms can be arranged on the liberal G. M. A. C. time payment plan. Buick and Marquette delivered prices include only reasonable charges for delivery and financing. Consider the delivered price as well as the list price when comparing automobile values.

WHEN BETTER AUTOMOBILES ARE BUILT... BUICK WILL BUILD THEM

DESOTO EIGHT WINS FAVOR HERE

"That fine performance, stamina and dependability in a modern automobile are not controlled by the price fixed for the finished car, but is the result of masterly engineering in the first instance, is proven by the sensational new low priced De Soto straight eight," says A. R. Weisgerber, Thirteenth street and Macdonald avenue, local De Soto dealer.

He points out that in every phase of automobile performance—acceleration, deceleration, flexibility and responsiveness, easy steering, power, vibrationless engine operation, economy—this new car shows ability that is usually associated with a much higher price.

In designing this new creation, which is priced under \$1000, particular attention was paid to the present-day demand for a car of all around capabilities," Weisgerber says. "That this has been achieved is shown by the amazing tests of the car made at Ligonier mountain, Pennsylvania, where the De Soto straight eight out performed cars costing twice as much.

"It does not cost any more for the Chrysler engineering staff to design and build a fine car to sell at a moderate price, and the public is given the benefit of the work of these expert engineers.

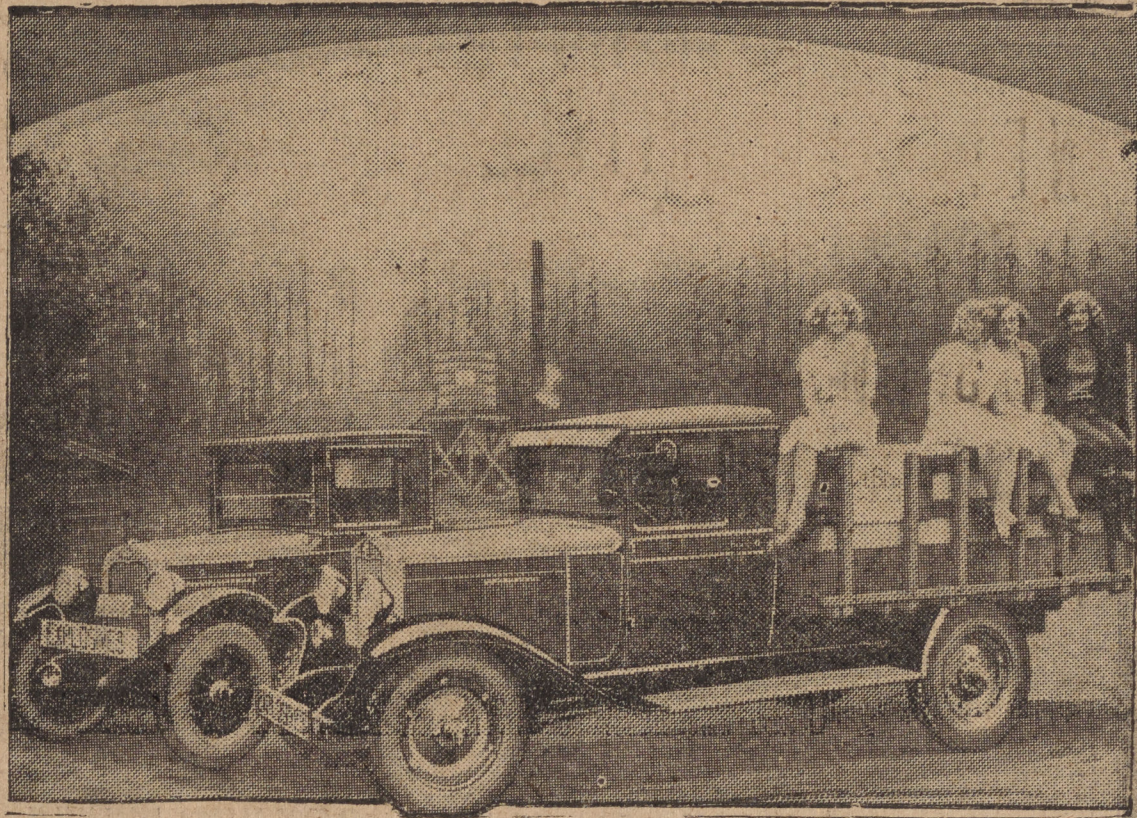

"Sitting behind the wheels of this fine straight eight and starting the motor, the first thing that strikes one is the quietness and the complete absence of engine vibration. Combined with this smoothness is a high degree of flexibility obtained from the perfectly balanced eight cylinder design. In traffic, for instance, this remarkable flexibility reduces the strain of driving to a surprising extent. Ease of traffic driving is further increased by a wonderfully light gear shift.

"Chrysler engineers spent much time in perfecting the new De Soto steering mechanism. The pressure of a single finger against a spoke of the steering wheel is sufficient to guide the car. The car can be handled at top speed with safety, and parked with ease. This feature alone makes the De Soto straight eight an ideal car for women drivers.

"Unusual braking power is obtained from the hydraulic front-wheel internal-expanding brakes. They give a maximum of brake power with a light pedal pressure, and making a quick stop does not depend upon physical strength. There is always reserve braking power, if needed. Full advantage may be taken of the quick acceleration and power of the engine with these brakes, both on the highway and in getting through holes in traffic.

"We have provided an exceptionally strong chassis with the De Soto straight eight, and also oversize bearings and gear teeth. To De Soto owners this means great stamina and high mileage.

Riding High

SEATED UPON a truck-load of powder, these young women appear not to be worried. These Chevrolet trucks are used daily in transporting hundreds of pounds of high explosives.

"The car is a marvelous hill-climber. There is absolutely no noticeable engine labor when tugging up a steep hill in high gear, nor is there any when the accelerator is released suddenly at high speed. The motor decelerates as silently as it accelerates, or breathes a steep hill."

Replace Leaky Water Pump

If the nut on the water pump on your car requires frequent tightening to stop a leak, the pump should be replaced, according to the California State Automobile association. The pressure required to stop a leak with poor packing may cause damage to the packing gland and nut, as well as the shaft bearing.

Ammeter Will Test Lights

It is not necessary to have one stand behind the car to note if the stop light is working, points out the California State Automobile association. If the ammeter band flickers when the brake is depressed the light is taking current.

BEWARE OF FIRE
A garage filled with the accumulated trash of years is splendid tinder for a vagrant spark, warns the California State Automobile association. The moral is plain but too often disregarded.

2 Billion Dollar Highway Bill

The nation's highway bill in 1928 totaled \$1,659,691,990 and preliminary estimates for 1929 place the amount at well over \$1,800,000,000, according to the California State Automobile association.

Restrictions on German Licenses

Applicants for an operator's license in Germany must be able to prove their mechanical efficiency to the point of being able to make emergency repairs upon their car, reports the National Automobile club.

Speedometer Needs Oil Lubrication

The speedometer on your car should not suffer for lack of lubrication, advises the free emergency road service of the California State Automobile association. Disconnect at the top coupling and pour about two or three tablespoons of oil into the housing, turning the cable to distribute the oil.

RICHMOND SCAVENGER CO.
All sorts of refuse removed on short notice. Call up phone 955 any time in afternoon.

OUTBOARD FANS TO MEET TODAY

The second meeting of the Richmond Outboard Motor club held at the offices of the Richmond Navigation and Improvement company offices on the inner harbor this morning at 10 o'clock.

Today's meeting will be directed by George Lauritzen, commodore of the local outboard motor association.

Much interest has been aroused over the organization of the club, and many boating enthusiasts have already joined. Plans are being started for races and other events on the inner harbor in the near future.

Edict Issued To Oil Companies

SAN FRANCISCO, Feb. 8.—UP—"Either stop oil and gas wastage voluntarily or face state court action," is the edict issued today by Claude C. Brown, state administrator, to the oil companies of California.

The demand was made public just as conservation moves threatened to break into a gigantic gas war in which 35 cent crude and 5 cent gasoline were prospective weapons.

"The oil producers must clean house," Brown said. "If they don't they will ruin their business, and if they do not voluntarily prevent this terrible waste of natural gas, the state will secure court orders to compel them to do so."

"The people have a right to demand that natural resources shall not be wasted because of shortsighted and selfish policies of a few producers."

Great Adventure Topic At Wesley

"A Great Adventure" is the topic of a sermon to be delivered by Rev. C. C. Lindemann of the Wesley Methodist church at the evening service tonight.

At the 11 o'clock service this morning, Rev. Lindemann will speak on "The Quest." Each of these subjects deal with life and religion as we find them today. Rev. Lindemann states that these services are not designed to be entertaining, but to aid those who desire to participate in the service of worship, and who are seekers after truth.

Grants Pass Fetes Tourists

Grants Pass, Ore., has reserved main thoroughfare parking space for its out of town visitors, reports the National Automobile club. Local drivers utilize the side streets leaving the main streets open for the convenience of tourists who would stop to shop enroute.

CHEVROLET SIX TRANSPORTS POWDER

All types of powders are in the public eye at present, such as Sedlitz, face, headache, bug, etc. However, the product produced by the West Coast Powder company, located near the old Pacific Highway a short distance south of Everett, Wash., is more interesting and temperamental than any of them. This company manufactures all manner of explosives. Large quantities of nitroglycerin, dynamite, blasting powder, mercury fulminate and other highly respected materials are stored in quantity at the plant, whose products are of such quality that few would attempt to hold a candle to them.

The West Coast Powder company, naturally, is careful in its selection of transportation equipment. Dynamite and other explosives are handled with care and reverence. It is, therefore, significant to learn that this firm is a user of Chevrolet trucks. It has owned five such cars. The most recent purchase was a new Chevrolet Six one and one-half ton car which has been driven 39,650 miles since last March at an operating cost of less than three cents per mile, according to L. R. Baker, foreman of the company.

This Chevrolet carries 4500 pounds of powder and dynamite each load and covers the north-west territory as far south as California. It maintains an average speed of 30 miles an hour and has never figured in an accident, Baker points out. Despite the overload it carries at all times, this six still is delivering economical transportation and will continue to do so for many more thousands of miles, says Baker.

Another Chevrolet truck owned by the company has been driven more than 47,000 miles without a breakdown and is still going strong. Its operating cost is almost exactly the same as that of the newer car. All other Chevrolets the company has owned have delivered most satisfactory service and mileage.

The west coast firm has been making powder and other explosives for six years, according to R. W. Hammond, owner and proprietor. The plant is located in thickly wooded country and is rather difficult to find. There is, of course, a good reason for this. A powder plant is not ordinarily located in the main hotel of a town. Visitors, especially those who smoke cigarettes, are not exactly advertised for. The buildings are widely scattered and are cut off from each other by dense woods.

Narrow roads connect them and the Chevrolets feel their way thru the timber, carrying their heavy loads without hesitation. Year in and year out, in all types of weather and over all manner of roads they deliver the explosives that are used in making highways, in clearing land and in driving mine shafts into the mountains of the northwest.

Connell and Shumate of Twenty-third street and Barrett avenue are Richmond agents for the Chevrolet six.

Sudden Stop Hurts Clutch

Stopping so suddenly as to stall the motor will result in serious injury to the clutch, warns L. G. Evans, general service manager for the National Automobile club. Always throw out the clutch in time to prevent such a condition.

Insulate Car Wires Properly

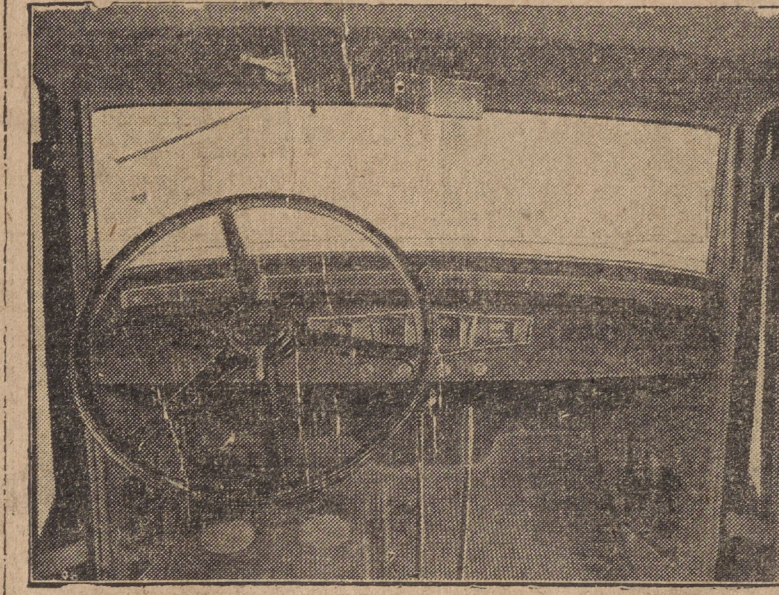

When electrical accessories are installed on a car, always make sure that all wires are properly insulated, advises the California State Automobile association. If loose ends should come in contact with metal parts, a short circuit may result, and cause fire.

Water Bad For Burning Brakes

Never use water on a hot or burning brake except as a last resort, advises the California State Automobile association. Sudden cooling will cause brake drums to warp. A warped brake drum cannot be adjusted satisfactorily.

Kinda Neat

THIS IS how it looks when you sit behind the wheel of the new De Soto straight eight which is now on display here. Nifty, eh, what?

Many Own Two Cars In U. S.

Over 20 percent of the automobile owners in the United States have two or more vehicles, according to reports reaching the California State Automobile association.

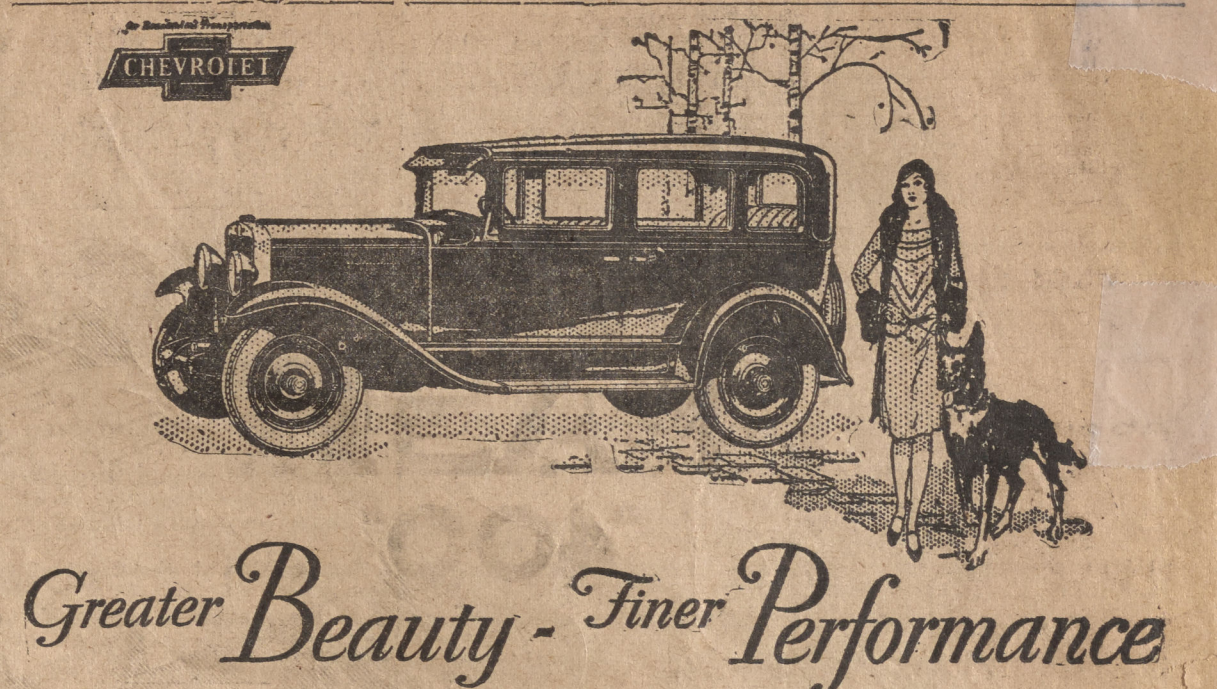

California is believed to be well in the lead in multiple car owners as the records of the association license service department show that thousands of members require more than one motor vehicle license every year. It is also reported by dealers that a large proportion of the sales of the present day are to persons who already own one or more automobiles.

Future Highway Prediction Made

A prediction of Bennett Chapple, vice president of the American Rolling Mill company, forecasts highways of a single welded piece of steel extending from the Atlantic to the Pacific, states the National Automobile club.

Car Increase More Than Road Mileage

There were 170 new motor vehicles registered last year for every mile of new highway constructed by Federal aid, reports the California State Automobile association, and there were thirty-three new cars registered for every mile of road surfaced throughout the nation.

Never has a Chevrolet car won greater praise for its appearance than the new Chevrolet Six. Its new Fisher bodies reveal in every detail the artistry that has made the Fisher name famous throughout the motor car world. In beauty of line and color, in balance and harmony of design, they represent one of the greatest style triumphs in Fisher history. Upholsteries are richer and more durable. The instrument panel carries a new and more attractive grouping of the control instruments. Seats are wider and deeper. In fact, not a single feature has been overlooked that would add to the comfort and convenience of both driver and passengers.

In addition to its new beauty, the new Chevrolet Six represents a remarkable advance in every phase of performance. Its improved six-cylinder valve-in-head engine has been increased to 50 horsepower—giving faster acceleration, and greater reserve power. Steering has been made safer and easier. Four Lovejoy hydraulic shock absorbers provide exceptional riding comfort. Fully enclosed, internal-expanding, weather-proof brakes give positive braking control. And numerous structural improvements add to the car's dependability, endurance and long life. Come in today and see this car. And remember, it is now available—

A SIX IN THE PRICE RANGE OF THE FOUR

Lowest-PRICED EIGHT IN THE WORLD

The fact that the new De Soto Straight Eight is the lowest-priced Eight in the world does not mean that one iota of quality has been sacrificed.

From every standpoint—this newest Chrysler-engineered

creation achieves a quality exceeding that of any other car in its price class, and of many that list well above it.

The features briefly described below are highlights of its quality construction.

Unsteel Construction of Chassis and Body—

A new and radical departure. 18 points of superiority over existing practice . . . Body and chassis designed as a unit, eliminating body sills and all other wooden parts.

Down-Draft Carburetion—

Employing a principle which permits gravity to assist in conducting the vaporized gasoline mixture into the cylinders. This type of carburetion results in a substantial increase in power.

\$965
AND UP—F. O. B. DETROIT

Hydraulic Four-Wheel Brakes—

The only type of brake in which equalization is inherent, automatic and permanent. The braking pressure exerted is always identical on all four wheels. Simple, rapid, smooth and quiet.

Full-Pressure Engine Lubrication—
Oil is supplied to all bearings by positive, pump cir-

ulation through drilled passages. Cored passages are not used because of roughness and hazard of stoppage.

Rubber-Cushioned Spring Shackles—

All shackles mounted in vulcanized rubber—no metal-to-metal contacts—no need for lubrication.

In addition to these outstanding quality features of the new De Soto Straight Eight, there are many others worthy of mention, and generally found only on motor cars of much higher price.

DANCE HALL AT CALIFORNIA THEATER

Bringing the work of one of the greatest of modern novelists to the talking screen, "Dance Hall" motion picture adaptation of the story by Vina Delmar, opens today at the Fox-California theater. It is the first time that a story of this sensational successful author has been transferred to the screen.

Originally written for Radio Pictures, and published in Liberty Magazine, "Dance Hall" has had millions of readers. It is a realistic, human story of a little ballroom hostess and two rivals for her love, told in the manner which made best-sellers of "Bad Girl," "Loose Ladies" and "Kept Woman." Miss Delmar's successful novel.

Olive Borden as Blonde
Radio Pictures, producer of "Dance Hall" has adapted the story faithfully. Careful selection of the cast resulted in Olive Borden being chosen for the leading role with Arthur Lake, one of the screen's leading younger actors, featured with her. Miss Borden's fans will be surprised to see her with blonde tresses instead of her well known jet black hair.

Joseph Cantorn, who scored outstanding hits in "Street Girl" and "Jazz Heaven" gives another of his intangible comedy characterizations in "Dance Hall."

Lee Moran and Tom O'Brien also are largely responsible for the identifying humor of the production. Other notable players in the cast are Helen Kaiser, Ralph Emerson, Margaret Seddon and Natalie Joyce.

Melville Brown, responsible for a number of talking picture hits, directed "Dance Hall." It is said that he has carefully caught the spirit of Miss Delmar's original story. The adaptation and dialogue was written by Jane Muffin and T. W. Miller.

Also on this program is a Fox talking News and "Collegians."

Contra Costans To Hold Member Meeting Soon

Contra Costans Associated will hold a membership meeting at the Memorial Hall, Martinez Feb. 27, at eight o'clock. This is the date announced today by Ralph H. Wight, its president. The meeting will be held jointly with the board of directors.

This will be the first meeting of the membership during the present year, and the new committees that have been functioning will have reports on the plans for carrying out the extensive program for action as outlined by the president earlier in the year.

Arrangements are being made to have two efficient speakers or subjects of interest to the county following brief reports of the committees.

Picturesque West Will Be Seen In Film

The wide expanse of the west that was, provides the picturesque locale for "Romance of Rio Grande" the feature all talking Fox Movietone picture with Warner Baxter, Mary Duncan and Antonio Moreno, announced for the attraction at the Fox-California theater Tuesday and Wednesday.

Massive scenes of the Rio Grande region, plains dotted with enormous herds of cattle, and the rare grandeur of the old Mexican estates, give pictorial testimony to the gigantic scale on which Fox Films staged this compelling romantic picture of the west, which is an Alfred Santell directorial effort.

"Conquistador," title of the novel from which "Romance of Rio Grande" was adapted, relates the triumph of man over country. Through it runs a pulsating romance and the gripping adventures of those daring pioneers who set out to conquer an untamed section.

Brightened with the dialect picture version is said to be the most engaging western drama to appear since the advent of the talkies.

Supreme Pyramid, Sciots To Tour National Parks

The supreme pyramid, ancient Order of Sciots are planning a tour of several of America's national parks. Many members and their friends from this city are contemplating this trip.

The transportation committee, headed by Chas. H. S. Pratt, chairman; E. C. Worrell, pharaoh, and Karl Eber, supreme scribe, has arranged a de luxe Santa Fe train that will leave San Francisco on June 21, returning July 8.

The national parks and other outstanding points of interest visited will be Grand Canyon national park, Isleta Indian Pueblo at Albuquerque, New Mexico, Colorado Springs, Pikes Peak and Denver, a four day tour of the Yellowstone national park, Rainier national park and the cities of Tacoma and Portland. In fact, 18 days of play, educational sightseeing and visiting our own nation's monuments, with which every American should be familiar.

Gatto To Build New Cottage

Application for a permit to construct a modern six-room and basement residence, adjoining his property on Rheem avenue, was made yesterday to the building department by A. Gatto, 2550 Rheem avenue.

Plans for the structure were prepared by James T. Narbett and Keith O. Narbett. The simplified Italian style will be used. The outside dimensions of the building will be 32x36 feet.

Dance Hall Girls

STEPPING high wide and handsome in "DANCE HALL," are Olive Borden and Natalie Joyce. They will be at the Fox-California today.

Rio Grande Love

WARNER BAXTER and Mary Duncan as they appear in "ROMANCE OF RIO GRANDE" which is coming to the Fox-California theater Tuesday.

MOTORIST NINE FIGHTS FOR TITLE

The Thomas Motors nine will try to stay at the top of the Oakland Winter league when they go into action against the Hayashi Florists of Alameda on the first street lot today at 2 o'clock.

The Motors are sitting on top of the baseball globe as a result of their 16 to 5 slaughter of the San Leandro Native Sons last weekend, and it is believed that they will be able to repeat an orgy of the same type with the Hayashi Florists today.

The chances of the Thomas aggregation to capture the Oakland Winter league title seems very probable. At present, they are in a triple tie for first place. They won the first round of the league, and, if they are able to hold their present standing, they will be awarded the title.

Campana is scheduled to start on the mound for the Motors today, while Boreain will do the receiving for the local outfit.

ELKS PREPARE FOR TOURNEY

Almost 100 members of the Richmond and Berkeley Elk clubs will compete in the annual Richmond-Berkeley Elk golf tourney March 1, on the Sarquinez links, according to A. A. Alstrom, local director of the tournament.

The Elks cup now held by the Berkeley lodge will be at stake in this tournament. The cup will be awarded at a banquet to be held immediately following the tournament on the night of March 1, in the Carquinez clubhouse. The costs of the dinner will be met by the losers of the tourney.

A. A. Alstrom is in charge of arrangements for Richmond's participation in the golf meet, and E. G. Lindcott is directing the preparations of the Berkeley lodge. The aspirants of the Elks' cup are training hard in preparation for this important event, and rumors are in circulation that this year's tourney will be even closer than last year's inter-lodge meet.

SAN PABLANS TO PLAY SONS

Everything is ready for the San Pablo-San Leandro Native Sons clash on the San Leandro diamond today at 2 o'clock.

Carl Kamb is scheduled to start chucking for the San Pablans, and Rogers will do the receiving for the locals.

The San Pablans ought not to have a great deal of trouble in today's meeting with the San Leandroans, judging by the records of the two teams during the last half of the Oakland Winter baseball league. San Pablo is tied for first place with the Thomas Motors, and handed the Hayashi Florists a 6 to 2 defeat last Sunday. Another reason for San Pablo's high hopes for today's contest is that its enemies in today's game, the San Leandro Native Sons, suffered a 15 to 6 trouncing at the hands of the Thomas Motors.

Yet curious things can happen in the best of regulated ball teams, and the San Pablans cannot afford to take things easy today.

SOCCER TEAM PLAYS TODAY

The Richmond soccer athletes will attempt to go into the lead in the Eastbay Soccer league today when they tangle with the Oakland Hakoahs at Nicholl park at 2 o'clock.

Richmond has built up an impressive record during the last month, and has speedily climbed to the top of the league where it is now tied with the Phoenix club. The outcome of the league will probably be affected to a great extent by today's battle at Nicholl park, for the league is drawing to a close, and the most critical weeks of this season are beginning for the league teams.

The league standing at present is as follows:

Points	
11	Richmond
11	Phoenix
10	San Pablo
10	Hakoahs
8	Pericos
3	Turnverins
1	Hayward

Two Polo Matches Set For Del Monte

DEL MONTE, Feb. 8.—UP—Two polo matches will be held here Sunday, the first at 10 a. m. between Pebble Beach and San Mateo for consolation prizes and the second between Del Monte and San Carlos for the finals of the Monterey cups.

The Del Monte-San Carlos game will be between 22 goal teams.

LOCAL CAGERS WIN OVER BROKERS

The E. F. Hutton cagers were sent back to Oakland defeated 23 to 20 last night by the Richmond City league all-stars while the city league light-weight all-stars defeated the Richmond Y. M. I. 41 to 19.

The Richmond all-star heavyweights easily held a large lead throughout the first three quarters. By half time, they were holding a 14 to 4 lead over the Oaklanders. The local boys maintained their fast pace during the third period, with the result that the scoreboard read 19 to 11 in favor of Richmond at the beginning of the fourth period.

Things began to even down in the fourth quarter. The Huttons smashed through the local defense and for a time, the result was in doubt. But the Richmondites held their lead of three points till the final whistle.

The Richmond lightweights had an easy game with the Y. M. I. outfit, and had a lot of nice practice shooting during the game. The Y. M. I. defense was useless against the superior offense of the City league stars.

The Richmond all-star heavyweights will see action against the Crockett fives Monday night in the Richmond union high school gymnasium. These games will start at 8 o'clock.

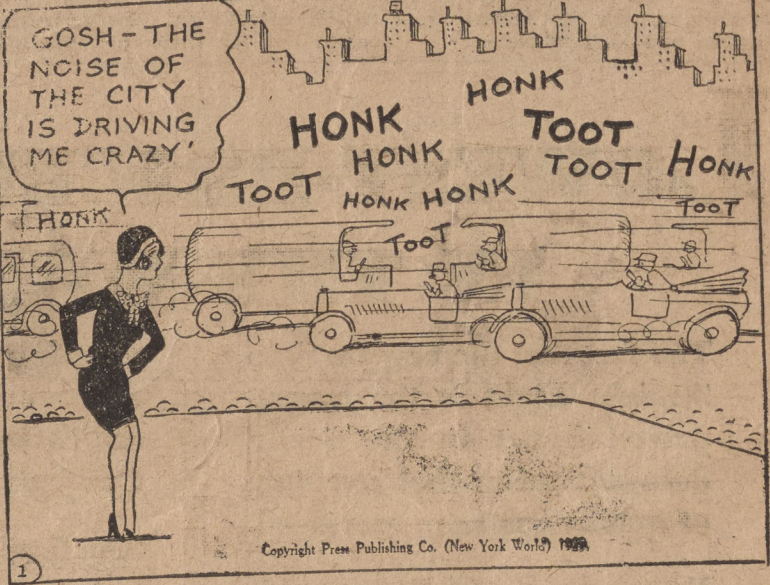

Martinez will play a return game with the all-stars Wednesday night in the local high school gymnasium. The Richmond all-stars will travel Friday night to Petaluma, where they will meet the pick of the Petaluma cagers.

First Game
Richmond All-Stars 23—D. Muth 10, Gillan 6, forwards; Baldwin 10, center; A. Muth 4, Barber 3, guards; substitutes Huzelka, forward; Bonham, guard.
Huttons 20—O'Brien 2, Allred 4, forwards; McVean 4, center; Ericson 7, Phillips 6, guards; substitute Hill 1, forward.

Second Game
Richmond All-Star 145—McLain 6, Maloney 8, forwards; W. Gordon 5, center; Lane 6, Gordon 8, guards; substitutes Hall 2, Cornell, forwards; Flynn 6, center.
Richmond Y. M. I. 19—L. Marcos 4, Leverone 4, forwards; Viano 1, center; E. Marcos 10, Swenson, guards; substitutes M. Marcus, Quill, forwards.

Earle A. S. Hopping, international star and high ranking eight goal player in America and Aden Roark considered one of the best players on the Pacific coast, will play for San Carlos.

Now Is The Time To Buy Real Estate in Richmond, Either a Home Or As An Investment

Macdonald Avenue is now and will always remain the Main business street. I have several large lots only one, two and three blocks from it on both sides between 6th and 16th streets.

Buy one and I will build a home to suit you, and sell it to you on easy terms, or cheap, for cash. Save time by walking to and from your work. They are sure to increase in value. This kind of property has made the greatest fortunes for many conservative investors.

A SPECIAL OFFERING
Owner having moved old house, off of lot 50x112 1/2 ft now has gas, water and sewer mains in from front to back; also a good garage. Some fruit trees in back yard and two large palm trees in front yard. Located on 17th St. North, 2 blocks from Macdonald avenue. Price very low as owner needs money. Come and let me show you this lot and I will surprise at the low price.

50x112 1/2 So. Side of Bissell between 14 and 15 Streets.
75x112 1/2 West side of 14th Street, near Bissell Ave.
75x112 1/2 Northwest corner of 14th and Chanslor Avenue.
75x112 1/2 East Side of 13th, between Bissell and Chanslor. Fine location for apartment house, or for 2 residences.

"GENERAL CRACK" BY GEORGE PREEDY

Copyright 1928 by Dodd Mead & Co., Inc.
The Warner Bros. & Vitaphone production starring John Barrymore is based on this novel.

SYNOPSIS
General Crack, soldier of fortune, has fulfilled his promise of erasing King Leopold as emperor. But the moment this ceremony is over, he pours his contempt and hatred of the seething emperor, Leopold, against Princess Eleanora, had to yield her up to General Crack, as the latter's price for entering the war. Leopold had stolen away in cognito one day, hidden hard, reached Crack's estate, and compromised Eleanora. During the coronation Christian defies Leopold, and declares he will have to pay to him for his treachery.

CHAPTER XX—Continued
For the Elector and the Prince of Wurtemberg had both made a movement as if to bar the door. Christian stood with his back to Leopold, of whom he seemed to take no further heed; but now he turned once again to Hensdorff, and said:

"Give me, Count, my final discharge. Tell me, before these gentlemen, that I leave you without debt or slur upon my reputation." "You have behaved," said Hensdorff, heavily, "with undeviating honesty and stern honour, from the day when we first made our bargain. Princes, I here acquit you of all further obligation."

"Must you," asked Leopold, hoarsely, "further call me up all this? Let him begone, Hensdorff!"

Leopold was seated upon his dais now, seated upon his throne under his Imperial canopy, surrounded by full and unblemished pomp; yet there was one dull noise continuously in his ears, above the babble of all the flatteries and adulations that flowed about his loaded table: the muffled clattering sound beneath his window of troop after troop, regiment after regiment, tramping through the streets.

When Leopold at length asked one of the Electors where the minister had gone, that Prince replied, not resisting a leer:

"Count Hensdorff went with General Crack."

THE Empire fell apart, like a huge body loosened by decay, and on every fragment the vultures gathered.

The gloriously built-up empire of Leopold of Bavaria was scattered, as a castle made of dried leaves might be scattered by the first blowing of a winter wind. Princes and cities fell away from him daily; after his coronation at Frankfurt he had scarcely called himself an emperor; his glory had begun and ended on that one occasion. Even at the Diet, many of the Electors gave him their open defiance. His cause was too paltry for their selfish upholding.

After the defection of his Commander-in-Chief, he appeared so abashed that most of his supporters regarded him as a man doomed to immediate defeat, and therefore left him.

Marshall De Lisle shrugged and returned to Paris, glad that the campaign had come to an end.

Some troops and some generals remained to the Emperor. There was his own special Imperial Regiment, and the Circle of Swabia, which were as yet loyal; and they did what they could, but with certain reluctance, though Leopold promised concessions and rewards to everyone.

BAY BARRIER NEED TOLD AT LOCAL BANQUET MEET

(Continued from Page 1)

five water commission includes: Senators Ralph E. Swing, of San Bernardino; H. C. Nelson, Eureka; Will R. Sharkey, Martinez; E. A. Muller, El Cajon; Assemblymen E. S. Crittenden Tracy, Van Bernal, Butte City; F. W. Minter, Exeter; and R. P. Easley, Antioch.

Renwick in Charge

The visit of the legislative committee yesterday marked its first visit to this section for a first hand study of the water situation. The group was met at Byron this morning by a caravan which included leading citizens of Richmond, city and county officials and industrial leaders of this area. The group, which included the committee, left for Pittsburg and went from there to Concord, Walnut Creek and the San Ramon valley. The caravan then wound its way to Martinez and from there to Richmond by way of Crockett.

Charles S. Renwick was in charge of the banquet presented by the committee. The session was undoubtedly the most enthusiastic and successful gathering ever held in this city in the interest of a public project.

Short excerpts from the various addresses of the evening follow:

Hunt Talks

MAJ. CHESTER HUNT, OAKLAND: The industrial water committee of the Oakland chamber of commerce is making an exhaustive study of the situation in this region. This committee has been appointed to recommend to the chamber after its survey the best and most practicable means of obtaining an abundance of cheap industrial water in this section. The Salt Water barrier will be among its major considerations although we do not feel free until this survey is completed to commit the chamber on any definite policy.

HOLLIS THOMPSON, BERKELEY CHAMBER OF COMMERCE: The Berkeley chamber of commerce is united with Richmond and other bay cities to solve the water problem. The supply of cheap water for industrial purposes here is the last remaining requirement for a great industrial community here. I am sure that our chamber will give the Salt Water barrier full support.

ASSEMBLYMAN CRITTENDEN: We are concluding a ten year survey of the water situation in California. We must be of an open mind to hear the problems of all communities. The development of this state is due to its water resources. All of them must be conserved in the best possible manner. We are a semi-arid state and the artificial diversion of water for use during the dry season is our only hope of future development. Cheap water has been practically used up. We must now find new supplies. The problem of navigation must be considered in all dams and barriers which we may construct. Thousands of acres of fertile land is facing destruction because the supply of water which has been used for irrigation is being taken away. The factor of safety in regard to floods is none too great in the Sacramento

river section.

Huge Problem

The water problem is one for the entire state. It is our duty to become acquainted with the entire problem of the state before we make any recommendations. This committee is called upon to present a solution for the problem from the northern to the southern boundary of California.

SENATOR H. C. NEILSON: Many parts of the state are not familiar with your problem here. You must remember before the barrier can become a state project it must have the approval of three fourths of the state legislature and then a majority vote of the people of the entire state.

SENATOR E. A. MULLER: The problem in the south is slightly different than that faced in this section of the state. We are getting relief there from the Colorado river project and from several smaller rivers. We are not asking any aid from the state as a whole at present except for one small project. It is my personal belief that the Salt Water barrier would win support in the southern part of the state if the facts in the matter were properly presented.

Aid Needed

ED HYATT: State and federal aid is needed if this project is to be made a success. The ultimate supply of water in California is not sufficient for all lands. Surveys indicate that pumping plants have drawn down the water level in many sections of this area. Water is so low in many sections that it is uneconomical to attempt to pump it for industrial or agricultural use. The questions to be answered in regard to this project are: What is the value of the water to be obtained and how the cost of construction of such a barrier, if built, should be spread.

C. W. SCHIEDLER: Water is hindering the proper industrial and agricultural development of this community. Suisun was formerly a fresh water lake. Today it is so salty that it is practically useless for industrial use except for a short time of the year. The flow of fresh water which formerly went to Suisun bay has been taken away from us in this section by agricultural irrigation further up the rivers.

Cities Hit

In 1924 Pittsburg abandoned the use of Suisun bay as a source of water supply for the city. Other cities have been hit by this disaster. In all 160,000 acres of rich agricultural land have been made useless by the encroachment of the salt. In addition to this 450,000 acres more are periled by this same situation. A \$600,000,000 annual business in this area is periled by the fresh water situation. Those now using wells find their wells drying up or becoming salty. The end of the use of these wells is in sight.

It will require at least 10 years to complete arrangements and construct the Salt Water barrier if favorable conditions exist. What will happen before that time is problematical.

The correct site for the barrier is an engineering problem. The project it is estimated will cost in the vicinity of \$122,000,000 which if covered by a bond would reap direct benefits. The development of the entire bay is being hampered by the lack of fresh water. We had the water at one time but it has been taken away from us.

Long Talks

CHICAGO BUSINESS MEN TO MOBILIZE TO FIGHT GANGS

(Continued from page one)

first report will be ready Feb. 21, and that isn't going to end there.

Criticized by inference in the association statement, Police Commissioner William F. Russell, already has started a campaign of attrition against the gangsters, who roam the loop district, live and eat at the best hotels and always are in evidence at sporting events.

State's attorney John A. Swanson, who also was criticized by inference because of "hundreds of indictments without convictions," has moved to indict all gangsters carrying pistols who are brought in by the police.

Press Enraged

In an editorial, the Chicago Daily News said: "Here's where the hoodlums are, what they are doing. What are you going to do about it?" The News explained that its information was not new and that everybody in Chicago was familiar with the details.

"The hoodlums world is going about its business and pleasures as usual," the News said. "The Capone mob must have been two other fellows the prosecutor meant, for all the attention they are paying to his stern ultimatum. Beer, booze and alcohol are made and delivered as usual; racketeers still ride to their loop offices in elevators; some hotel lobbies are cluttered with their presence; they still can be seen waving forks in downtown restaurants and tea rooms making whoopee in the brightest of the city's oases for playboys."

250 Killed

The story of Chicago gangland from 1929 to the present smoothly working organization that has the story of 3,500,000 divided into zones, virtually is the story of the later years of Al Capone's reign. Capone made racketeering pay big dividends and hoodlums flocked to his banner when he held out the lure of ready but ill gotten gold. Taken from the ranks of the New York "Five Points" gang early in the twenties by Johnny Torrio, then head of the racket in liquor, vice and gambling, Capone soon deposed his chief and seized the fountain heads which poured millions into his and his lieutenants' pockets.

In the ten years, some 250 gangsters have been murdered and just one case solved. The first to fall before the gang machine guns was "Big Jim" Colosimo, "King" while Capone was serving his apprenticeship. Next was Joe Howard, a more rustler, important because it marked the first and only time Capone ever was arrested and questioned in a gang murder. All witnesses suffered a lapse of memory and Capone walked out of the station with a cheery wave to his questioners. From that day on until a year ago when he was arrested and jailed in Philadelphia for carrying a gun, Capone appeared immune from arrest, though his enemies were murdered from time to time as they revolved or crossed his path.

Gangs Fight

Dian O'Banion, ostensibly a florist, but really a beer baron, was murdered in his shop; William McSwiggin, his machine gunner, was shot to death in Cicero, Capone's original haunt. Tony Lombardo was slain in the loop one afternoon during the rush hour, and scores of less notable gangsters were "taken for rides" by a gangland trick originated by the Capone mob.

The killing over which the gang would control beer, vice and gambling in this and that district came to a climax last St. Valentine's day when seven gangsters who swore allegiance to George "Bugs" Moran, were massacred. Moran was an enemy of Capone for the North Side beer trade. Capone was conveniently in Florida. Jack McGurn, his machine gunner, was arrested and indicted but his charges recently were dropped.

Pact Signed

One other gangster, John Seal, also was indicted, but fell, with two others, in the "little massacre," a few weeks later. Their

bodies were hauled over into Indiana and dumped into a ditch. The gang war became so fierce that Capone was forced into a "peace pact" by Johnny Torrio, Moran and Joe Aiello. The four, with brazen indifference, divided up the town for racket purposes. Capone was jailed as he arrived in Philadelphia after the Atlantic City "peace parley."

One of the terms of the agreement was that Torrio should decide who was to be murdered and when. Peace reigned until a week ago when, with Capone about to be freed from jail, the gangsters started a new outburst with the resultant death toll of seven in as many days.

TALKS PLANNED FOR REGIONAL MEETING

"Developing the Great Eastbay of the Future" will be the topic of the next meeting of the East Bay Regional Planning association. The meeting will be held on Thursday evening, Feb. 13, in the Board of Education rooms, School Administration building, Second avenue and East Tenth street, Oakland.

William S. Wallace, vice president of the California Real Estate association will speak on "The Great Eastbay City That is to Be." Joseph W. Bingham, vice president of the association, on "More Efficient Highways for the Eastbay Section."

Fifty new directors, representing every city in Alameda and Contra Costa counties, will be introduced to the membership. Outstanding men and women have been chosen because of their civic pride and known ability. The list of new directors includes:

P. M. Sanford, E. B. Bull, Fred Parr, Richmond; Leslie Green Albany; E. M. Haugh, Hollis R. Thompson, Fret. John W. Gregg, Mrs. Roy V. Davis, Gerald Benk, Mrs. Berkeley; Maj. Clinton Hickok, A. R. Linn, H. F. Schlichting, Alameda.

Charles D. Sharrow, Ralph D. Crouch, Ex. E. Lintbicus, San Leandro; Judge Jacob Harder, Jr., George A. Walter, Hayward; Milton Vanderveer, James F. Mauzy, Walnut Creek; Judge E. T. Jackson, Concord; G. B. Sturgeon, Maj. M. M. Garrett, Lafayette; D. D. Watson, Brentwood; Harry Hammond, Byron.

Sen. Wm. Sharkey, C. A. Rickes, Thomas Hanna, Martinez; Otto Loveridge, P. F. Nicholls, Pittsburg; Brother Lewis, Horace H. Bredt, Moraga; E. I. de Laveaga, W. H. Jordan, Orinda; Major W. S. Overton, W. P. Finlay, Piedmont.

E. Georgy Banks, W. J. Bergsma, H. A. Vanderhaar, Mrs. Bessie W. Gustason, Emil Fritsch, Claude Geneva, W. D. Francis, E. D. Lander, W. S. Wallace, James W. Wilson, Joseph C. Whitnah, Joseph Parker, Dr. R. I. Coffee, Oakland.

Relay races, headed the list of 29 events. Eight baton passing heats featured the schedules, in which members of the Big Six conference competed.

THE RECORD-HERALD

COMMITTEES OF CHAMBER NAMED

Standing committees of the Richmond chamber of commerce for 1930 were announced yesterday by P. M. Sanford, president of the chamber.

The committees follow:

Executive Committee:
J. F. Brooks, chairman
George Rooker
E. B. Bull
T. H. DeLap
J. A. McVittie
E. M. Downer

Finance and Budget Committee:
Fred Caudle, chairman
Aubrey Wilson
F. S. Newcom

Legislative Committee:
T. H. DeLap, chairman
T. M. Carlson
H. W. Patterson

Membership Committee:
Ralph E. Bergen, chairman
George Thornton
L. G. Eby
Roy K. Dorr
Ernest Marcus
Charles Engel
E. A. Burg

Publicity Committee

Fred D. Parr, chairman
J. A. McVittie
J. F. Galvin
M. A. Hays
G. E. Milnes
A. L. Paulsen

Traffic Committee

W. W. Scott, chairman
Frank M. Chandler
Harry T. Raup
H. C. Uddenberg
Harry C. Gunnison
Wm. Dooling
A. A. Moran
Fred Adams
Frank B. Morehouse
Wm. Cuno

Industrial Committee

E. B. Bull, chairman
C. S. Renwick
L. G. Eby
T. A. Goodrick
J. A. Christie

Streets and Highways Committee

F. S. Newcom
A. B. Hinkley
George Fredenburg
Russell Meyer
E. A. Hoffman

Transportation Committee

A. L. Paulsen
G. E. Collins
F. B. LaMoine
W. A. Niedrich
J. H. Plate
W. B. Trull

Harbor Committee

H. A. Johnston, chairman
J. A. McVittie
J. F. Brooks
W. W. Scott
V. A. Fenner
J. A. Christie

Civic Affairs Committee

Aubrey Wilson
Mrs. J. H. Chandler
Dr. W. E. Cunningham
Wm. Metz
Otto R. Ludewig

Entertainment Committee

C. C. Kratzer, chairman
Dan Reardon
Mrs. H. W. Bryant
Dan Cox
Herbert Schrader

Aviation Committee

T. M. Carlson
George E. Barnett
L. J. Younce

Salt Water Barrier Committee

C. S. Renwick, chairman
Ralph Bergen
M. A. Hays
E. M. Downer
R. T. Osborne
George Barnett

Metropolitan Bay Area Committee

George N. Rooker, chairman
Henry A. Johnston
Fred D. Parr

Manufacturers Committee

H. C. Montgomery
Ralph Bergen
Gus Penning
Frank Irving

Jury Dismissed In Trial Of Judge Slayer

AUSTIN, Tex., Feb. 8.—UP—Judge J. D. Moore, discharged the jury which heard the trial of John W. Brady, charged with the knife killing of Miss Leilia Highsmith, at 4:22 p. m. today, after failure to reach an agreement. Deliberation fell short of 96 hours by 23 minutes.

Earlier in the afternoon the defense had filed a motion to discharge the jury. While it was pending, state's attorneys filed a similar motion with the addedum asking that the case be transferred to Williamson county on a change of venue.

The defense then withdrew its motion. But Judge Moore called the jury to the court room, asked if the members still felt an agreement was impossible and on an affirmative response, discharged it. Judge Brady was accused of stabbing Miss Highsmith to death on the night of Nov. 9 when she returned to her home here after being out in a motor car with another man.

Witnesses testified the jurist was intoxicated. A defense of insanity produced by the effects of excessive indulgence in liquor was entered.

Today was the twentieth day since the trial started. The jurors were retired at 4:55 p. m. Tuesday.

Aahmes Temple To Entertain At Valentine Dance

Preparations for a formal Valentine ball are now under way by the officers and committeemen of Aahmes Temple.

The ball will be held in the ivory ballroom of the Hotel Oakland on Friday evening, February 15. Ray J. Polk, chairman of the committee, announced that invitations had been sent out to 500 members and it was expected that Shriners from all parts of the bay region would attend.

Others members of the committee in charge of the arrangements include Jack Block, vice chairman Ernest Richards, Al Upton, William H. Tamm, Bert Campbell, Stuart Fisher, William O. Rube, Captain Steinbach, Arthur R. Anderson, Ben Morris and William T. G. Jordan.

Guest Artist At First M. E. Church

Mrs. Marion Kiloh will be the guest artist at the First Methodist church services this morning. Mrs. Kiloh will sing "How Lovely are Thy Dwelling." The choir will render the anthem "Let The Earth Rejoice." "Taste and Be Convinced" the third of a series of sermons on the "Five Senses" will be delivered by Rev. F. H. Prince.

NEW TODAY

FOR EXCHANGE—Modern cottage, half acre of ground, beautiful view near Arlington avenue, Berkeley, price \$3,000.00. Want vacant lots as first payment. W. C. Levenson, 539 Eighteenth street, Oakland. 2-4-10

BANQUET OPENS BOY SCOUT WEEK

(Continued from page one)
The Roosevelt Junior high school auditorium at 3:30 this afternoon.

Services Today

The program, which is under the direction of the Richmond Ministerial Union, will be as follows:
Invocation, Rev. H. I. Oberholzer; the Lord's Prayer; hymn, "America the Beautiful"; responsive reading, Rev. K. B. Wallace; offertory; Scout Oath and Laws, Scoutmasters W. E. Watrous and E. J. Barnhard; male quartet, Wesley Methodist church; scripture reading, Rev. D. A. Williams; prayer, Rev. F. H. Prince; sermon, "The Old Rugged Cross"; sermon, "The Scout Becomes a Man," Rev. Primus Bennett; hymn, "Stand Up for Jesus"; benediction, Rev. H. M. Campbell.

Mobilization Plan
A feature of the anniversary week will be a mobilization to be held by the Richmond Scouts sometime this week. The exact hour and day are known only to three persons.

When the signal comes, all Scouts will assemble at a concentration point prepared for any emergency. The boys will carry complete equipment for an overnight camp.

It is not known what "emergency" will confront the boys but they will be prepared to meet any emergency that may arise.

During the week Scout troops will entertain their parents. Troop No. 10 will be hosts to fathers and mothers at a meeting Thursday night in the Scout hall. A special program is being arranged.

Protect Your Furniture

A \$125 to Rid Your Home of Moths May Save You Hundreds of Dollars.

MORTEMOTH KILLS MOTHS

The gas from Mortemoth crystals not only protects your furniture for a long time, but contact with it kills all moths, their eggs and their dangerous larvae in furniture which is already infested.

The proper method of using Mortemoth crystals is to tie them in small sacks, and to place these sacks down in the channel of the piece, as deeply as possible, behind the cushions, so that, upon expansion, the gas will spread and fill the spring units in the back and in the bottom of the piece.

When the sacks are empty, fill them again.

PRICE \$1.25 PER BOTTLE

Sleeve Torn Off To Save Man's Life

Quick thinking saved Tony Frank, 2344 Clinton avenue from possible death or serious injuries yesterday morning.

While working in the Paragon Machine works, his sleeve caught in a revolving lathe. Frankie quickly ripped off the sleeve before he was drawn into the lathe.

He suffered minor injuries and was treated by Dr. J. B. Spalding.
